
Voluntary contributions by fund and by contributor, 2015

1. The present report supplements the WHO programmatic and financial report for 2014–2015, including audited financial statements for 2015.¹ The following schedules are provided in the Annex:

Schedule 1 – Voluntary contributions, by fund

Schedule 2 – Voluntary contributions, by fund and by contributor

Schedule 3 – Deferred revenue, by fund and by contributor

Schedule 4 – Voluntary contributions receivable – non-current and current (by age and by contributor)

Schedule 5 – In-kind and in-service voluntary contributions

Schedule 6 – Voluntary contributions received in advance for 2016

2. The accounting policies for accounts receivable and revenue are summarized in sections 2.3 and 2.15 of the Financial Statements for the year ended 31 December 2015.¹ Revenue from voluntary contributions is recognized in accordance with the International Public Sector Accounting Standards (IPSAS), in particular IPSAS 23 (Revenue from Non-Exchange Transactions). Revenue from voluntary contributions is recorded when a binding agreement is signed by WHO and the contributor. Where there are “subject to” clauses in an agreement, WHO does not control the resource and does not record the revenue and amount receivable until the cash is received. Where there are no payment terms specified by the contributor or payment terms are in the current accounting year, revenue is recognized in the current period. Where payment terms specify payment after the year end, the amount is reported as deferred revenue. Where the start date is indicated as being in the following year, revenue is recognized in the following financial year with any cash receipt recorded as an advance.

3. Each voluntary contribution is recorded through an award. The summary schedules presented in the Annex aggregate those awards, reporting contributions by fund and by donor. Miscellaneous receipts and donor contributions totalling less than US\$ 10 000 are grouped together and reported as “other”.

¹ Document A69/45.

ANNEX

World Health Organization**Schedule 1 – Voluntary contributions, by fund***For the year ended 31 December 2015 (in US dollars)*

	Notes	2015	2014

Total Fiduciary Fund		5 443 541	53 664 004
(Increase)/decrease in allowance for doubtful receivables		(650 968)	25 610
Elimination of Interfund transfers		(3 320 249)	(3 492 101)
Total voluntary contributions	7	1 838 442 530	2 051 910 760

Note 1. “Voluntary contributions – core” includes the following types of revenue: funds received to support the Programme budget as a whole, considered fully or highly flexible; and funds that are earmarked for purposes within the Programme budget, considered designated, or of a medium level of flexibility. Fully flexible funds and highly flexible funds, earmarked only at the level of the category, are recorded in the core voluntary contributions account. Designated funds, earmarked at the level of programme area, are not as tightly specified for detailed activity or expenditure line reporting as voluntary contributions – specified, yet are still earmarked rather than highly flexible so are categorized as voluntary contributions – core. In addition, voluntary assessed contributions are recognized as voluntary contributions – core.

Note 2. “Voluntary contributions – specified” include Base programmes, Special programmes and collaborative arrangements and Outbreak and crisis response.

Note 3. The Contingency Fund for Emergencies (CFE) was created in 2015 to provide temporary financing for emergency operations. For full details see note 6.3 to the Financial Statements for year ended 31 December 2015 within the WHO programmatic and financial report for 2014–2015, including audited financial statements for 2015 (document A69/45).

Note 4. Effective 1 January 2015, the administration of the Stop TB Partnership and the Stop TB Partnership Global Drug Facility Fund has moved to the United Nations Office for Project Services (UNOPS). Negative revenue represents the cancellation of remaining amounts due under agreements and the transfer of funds to UNOPS under novated agreements.

Note 5. Activities under the Health Metrics Network ceased in May 2013. Negative revenue represents refunds of unspent amounts.

Note 6. The Expanded Special Project for Elimination of Neglected Tropical Diseases (EPSEN) Fund was created in 2015 following the closure of the African Programme for Onchocerciasis Control (APOC) operations. For full details see note 6.7 to the Financial Statements for year ended 31 December 2015 in document A69/45.

Note 7. As reported in the Statement of Financial Performance for the year ended 31 December 2015 (see document A69/45), all activities implemented by WHO have been consolidated in the financial report. This includes voluntary contributions received under the General Fund and the Fiduciary Fund. Voluntary contributions reported in Schedules 1 and 2 of this report include in-cash contributions only. In-kind and in-service contributions are reported separately in the Statement of Financial Performance and detailed in Schedule 5 of this report.

World Health Organization

Schedule 2 – Voluntary contributions, by fund and by contributor

For the year ended 31 December 2015 (in US dollars)

A. GENERAL FUND

Note 1. Revenue from voluntary contributions is recognized in accordance with IPSAS 23 (Revenue from Non-Exchange Transactions). Revenue is recorded when a binding agreement is signed by WHO and the contributor. Where there are “subject to” clauses in an agreement, WHO does not control the resource and does not record the revenue and amount receivable until the cash is received. Where there are no payment terms specified by the contributor or payment terms are in the current accounting year, revenue is recognized in the current period. Where payment terms specify payment after the year end, the amount is reported as deferred revenue. Revenue recognition will be revised based on changes to the payment terms listed in the signed agreement. Where the start date is indicated as being in the following year, revenue is recognized in the following financial year with any cash receipt recorded as an advance – see Schedule 6.

Note 2. Interfund revenue represents the transfer of funding internally between the General Fund and the Fiduciary Fund. These are recorded as an expense to the “donor” fund and as revenue to the “recipient” fund and are eliminated on consolidation.

Note 3. Negative amounts represent a decrease in the revenue recognized in a prior period due to changes in contractual terms or a reduction in amounts receivable.

Note 4. Refunds to donors represent an outflow of resources based on a donor request following the submission of a final report showing a balance of unutilized funds. Refunds represent a decrease in the revenue recognized.

World Health Organization

Schedule 2 – Voluntary contributions, by fund and by contributor

REIMBURSABLE PROCUREMENT – funds received in advance of delivery of goods or services (Note 2)					38 904 220
GRAND TOTAL					536 888 881

Note 1. Deferred revenue is recognized based on legally binding agreements between WHO and its contributors where funds are earmarked and due in a future period. Deferred revenue – current (US \$339m) and non-current (US \$197m) are reported separately in the Statement of Financial Position and detailed as part of Note 4.14 to the Financial Statements for the year ended 31 December 2015 in document A69/45.

Note 2. As reimbursable procurement is an exchange transaction, any funds received in advance of delivery and services are reported as deferred revenue.

Total amounts receivable	197 471 247	640 576 569	152 522 838	766 328 073

Note 1. Voluntary contributions receivable – current and non-current are reported in the Statement of Financial Position and detailed as part of Note 4.3 to the Financial Statements for the year ended 31 December 2015 in document A69/45.

Voluntary contributions receivable – non-current are amounts that according to the donor agreement are due to be received more than one year after the balance sheet date being reported.

Voluntary contributions receivable – current are amounts that according to the payment terms given in the agreement with the contributor are due as at or within one year of the balance sheet date, or where no payment terms are specified in the agreement. Amounts are aged from the due date of the invoice to the balance sheet date and hence amounts showing with ageing more than 360 days are overdue.
