  – Integrated health and social care
  – Long Term Care systems
  – ICOPE approach

• Consider important elements of an ICOPE approach: *WHAT*

• Identify actions for implementation of the ICOPE approach in health and long term care systems: *HOW*
WHO Global Strategy on Ageing and Health

- Improve measurement, monitoring and understanding
- Ensure everyone can grow old in an age-friendly environment
- Align health systems to the older populations they now serve
- Develop long-term care systems
Ten Priorities – Towards a Decade of Healthy Ageing
HEALTH FOR ALL – INTEGRATED CARE TO ACHIEVE UHC FOR OLDER PERSONS
Older adults get the health care they need - where and when they need it.
Older people and care givers get the care and support they need to live with dignity and enjoy their basic human rights.
People have the skills to deliver quality health and long-term care services for older people.
