quality-adjusted life years (QALY), costs per 79:679–680, 79:681–684

quality assessment, external see external quality assessment

quality control
  health information systems and poverty indicators, in Tanzania 83:569–577
  immunization coverage assessment 79:501–505
  immunization monitoring systems 83:503–510
  vaccines 78:153, 78:155–162

quality of health care
  child health services in developing countries 81:886–895
  for children under-five, in Bangladesh 83:260–267
  client satisfaction and 79:512–517
  framework for dealing with 81:313
  improvement, to achieve Millennium Development Goals 84:259
  maternal mortality in Indonesia and 80:228–234
  patient evaluations vs WHO measures 82:106–114
  private and public providers of antenatal care, in Tanzania 81:116–122
  private sector, in low-income countries 80:325–330
  for rape survivors in South Africa 83:495–502

quality of life (QoL)
  chronic diseases and caregivers in China 82:493–502
  determinants in South Africa 82:206–212
  in leprosy 77:515–517
  oral health and 83:644
  oral health-related (OHRQoL) measure, in oral health service planning 84:36–42
  prevalence in general population 79:1047–1055
    quinine and tetracycline, in malaria 77:235–243
rabies
  burden of disease in Africa and Asia 83:360–368
  canine, pilot vaccination campaign in Chad 81:739–744
  elimination of human, in canine endemic area of Thailand 81:375–381
  estimating mortality in Tanzania 80:304–310
  vaccines for postexposure vaccination 78:693–698
radiation exposure, Balkans and Gulf war zones 79:274
radiographs, chest see chest radiographs
radon, residential exposure to, and lung cancer 81:732–738
randomized controlled trials (RCTs)
  anterior chamber intraocular lenses 78:372–378
  cervical cancer screening, determinants of participation, in India 85:264–272
  international collaboration, in Africa 83:511–517
  interventions to prevent HIV 79:1121–1132
  registration 82:321, 82:397, 82:714
  short-course eflornithine 78:1284–1295
  see also clinical trials/research
rape
  quality of health services in South Africa 83:495–502
  see also sexual violence
rare diseases
  essential drugs for 84:686, 84:745–751
  see also neglected diseases; orphan drugs
rationing, antiretroviral treatment, ethical and equity implications 83:541–547
Reaching the poor with health, nutrition, and population services (Gwatkin et al) 84:920
realization of potential life years (RePLY) 85:681–687
