

Index

Bulletin of the World Health Organization, Volume 84, 2006

Subject index

No. 1, January 2006, 1–80
No. 2, February 2006, 81–160
No. 3, March 2006, 161–256
No. 4, April 2006, 257–336
No. 5, May 2006, 337–424
No. 6, June 2006, 425–504

A

Abortion, maternal mortality in Russian Federation 283–289
Accountability for reasonableness framework, Global Fund projects 576–580
Adolescent suicide in Middle East 840
Afghanistan
 contracting-out of health services 867–875
 extension of BRAC programmes to 677–681
 women as health workers 845–847
Africa
 breastfeeding and health of HIV-positive mothers 546–554
 cause-specific mortality rates in sub-Saharan 181–188
 child mortality trends in sub-Saharan 470–478
 dosing regimens for new antimalarial combination in sub-Saharan 956–964
 effect of HIV epidemic on infant feeding 90–96
 extensively drug-resistant TB (XDR-TB) in southern 924–925
 HIV testing in national population-based surveys 537–545
 insecticide-treated bednets during early infancy, for malaria control 120–126
 male circumcision for HIV prevention 509–511
 syndromic management of vaginal discharge in West 729–738
Agreement on Trade-Related Aspects of Intellectual Property Rights *see* TRIPS agreement
Agriculture, links with health 984–990
AIDS *see* HIV/AIDS
Air pollution, indoor 508
Albendazole, mass administration programme in Nigeria 673–676
Alcohol use, acute, and non-fatal injuries 453–460
Americas, WHO Regional Office 695–697
Amoxicillin, for severe pneumonia in HIV-infected children 269–275
Animal and human *Schistosoma japonicum* infection, in the Philippines 446–452
Antenatal clinics, preventing vertical transmission of HIV in Kinshasa, Democratic Republic of Congo 969–975
Anthelmintic drugs, integration of mass administration programmes in Nigeria 673–676
Antibiotics (antimicrobials)
 to control trachoma 613–619
 prophylactic, in cancer patients 605
 severe pneumonia in HIV-infected children 269–275
 syndromic management of vaginal discharge in West Africa 729–738
Antimalarial drugs
 age-based dosing regimens for new combination 956–964
 artemisin-based 6–8
 chemoprophylaxis, and re-emergent *Plasmodium vivax* malaria, in Republic of Korea 827–834
Antiretroviral therapy (ART)
 drug pricing and procurement 393–398
 highly active (HAART), hybrid data capture approach for monitoring, in Botswana 127–131
 nationwide scale-up in Malawi 320–326
 programmes, monitoring scale-up 145–150
 towards universal access 506
 trade rules interfering with access to 342–344
Argentina, causes of stillbirths and early neonatal deaths 699–705
Artemisin-based combination therapy, malaria 6–8
 age-based dosing regimens for new combination 956–964
Australia
 acute intussusception in infants 569–575
 health risks of intimate partner violence 739–744
 measles surveillance 105–111

No. 7, July 2006, 505–588
No. 8, August 2006, 589–684
No. 9, September 2006, 685–764
No. 10, October 2006, 765–840
No. 11, November 2006, 841–920
No. 12, December 2006, 921–1000

mortality from heart failure, 1997–2003 722–728
numerator/denominator bias and inequalities in occupational mortality 198–203
 public–private partnerships for hospitals 890–896
 socioeconomic disadvantage and health risk behaviours 976–983
Autopsies, verbal *see* Verbal autopsies
Azithromycin, to control trachoma 613–619

B

Bacillary dysentery, trend and disease burden in China 561–568
Bahrain, contracting-out of health services 867–875
Bangladesh
 cause-specific mortality rates 181–188
 informal village doctors and TB control 479–484
 measuring maternal mortality 173–180
 transfer of development programmes to Afghanistan 677–681
Bangladesh Rural Advancement Committee *see* BRAC
Bednets, insecticide-treated *see* Insecticide-treated bednets
Blindness, SAFE strategy to control trachoma 613–619
Books and electronic media
 Getting health reform right (Roberts *et al*) 160
 La réforme des régimes de soins de santé (Rilliet Howald) 78
 Making medicines affordable (Chaudhury & Gurbani) 424
 Medical ethics manual (Williams) 159–160
 Obesity prevention and public health (Crawford & Jeffery) 334
 Reaching the poor with health, nutrition and population services (Gwatkin *et al*) 920
 Reducing the stigma of mental illness (Sartorius & Schulze) 333–334
 Strategies to address alcohol problems (Samarasinghe) 684
 Youth: choices and change (Breinbauer & Maddaleno) 503
Botswana
 ethics of routine HIV testing 52–57
 hybrid data capture for monitoring HAART 127–131
BRAC (formerly Bangladesh Rural Advancement Committee) 682–683
 programme transfer to Afghanistan 677–681
Brazil, district uptake of Integrated Management of Childhood Illness strategy 792–801
Breastfeeding
 effect of HIV epidemic in South Africa 90–96
 and health of HIV-positive mothers in sub-Saharan Africa 546–554
 by HIV-positive mothers, impact on maternal and child health 546–554
Bulletin of the World Health Organization
 guidelines for contributors 79
 new "Lessons from the field" guidelines 3
Burden of disease
 bacillary dysentery in China 561–568
 intimate partner violence in Australia 739–744
 surveillance *see* Surveillance
Burkina Faso
 catastrophic household health care expenditure 21–27
 enrolment in community health insurance 852–858
 HIV testing in population-based survey 537–545
 insecticide-treated bednets during early infancy, for malaria control 120–126

C

Cameroon
 evidence-based reproductive health care 504
 HIV testing in population-based survey 537–545

- Canada, health service use outcomes in injured adults 802–810
- Cancer patients, prophylactic antibiotics 605
- Carcinogenesis, experimental tobacco 494–502
- Cardiovascular disease, risk factor surveillance system for Indian industrial populations 461–469
- Caregivers, perceptions of danger signs in neonates, in India 819–826
- Case-finding, TB
 public–private collaboration aiding, in poor and vulnerable 752–758
 through village outreach programme, in rural Ethiopia 112–119
- Catastrophic household health care expenditure, in Burkina Faso 21–27
- Catheters, peripheral intravenous, heparinized saline flush 603–604
- Causes of death (COD)
 assessment without death registration/certificates 246–253
 data collection
 in rural Ethiopia, InterVA model 204–210
 in sub-Saharan Africa and Bangladesh 181–188
 in Thailand 233–238
 estimation from community- and facility-based data, in United Republic of Tanzania 940–948
 heart failure, in Australia, 1997–2003 722–728
 maternal mortality
 knowledge gaps in scientific literature 903–909
 in Russian Federation 283–289
 quality of data 254–256
 standard list of leading 297–304
 statistics and public health usefulness in Cape Town 211–217
 stillbirths and early neonatal deaths, in developing countries 699–705
 verbal autopsies 164, 239–245
see also Mortality
- Cervical cancer, HPV vaccine to prevent 86–87
- Chad, setting ground rules and regulating contracting practices 897–902
- Chan, Dr Margaret, appointment (November 2006) 929
- Change process, to improve health service delivery 658–663
- Child health
 accessing and understanding the evidence 922
 community-based services in Ghana 949–955
 in complex emergencies 58–64
 equity-sensitive monitoring of Millennium Development Goals 519–527
 impact of breastfeeding by HIV-positive mothers 546–554
 impact of World health report 2005 327–332
 Integrated Management of Childhood Illness *see* Integrated Management of Childhood Illness
- Child mortality
 in complex emergencies 58–64
 estimating 162
 improved triage and emergency care reducing, in Malawi 314–319
 tracking progress towards Millennium Development Goals 225–232
 trends in sub-Saharan Africa 470–478
- Children
 antimicrobial therapy for severe pneumonia in HIV-infected 269–275
 diarrhoea, flocculant–disinfectant for drinking-water to control, in Guatemala 28–35
 dosing regimens for new antimalarial combination, in sub-Saharan Africa 956–964
Haemophilus influenzae type b (Hib) vaccination, in South Africa 811–818
 immunization, systematic reviews and knowledge translation 643–651
 improving triage and emergency care, in Malawi 314–319
 oral health needs, sociodental approach to assessing 36–42
 quality of emergency care, in developing countries 258
 responsive parenting 991–998
 surveillance for congenital rubella syndrome in Myanmar 12–20
- China
 alveolar and cystic echinococcosis 714–721
 bacillary dysentery, trend and disease burden 561–568
 HIV/AIDS 261–262
 knowledge systems approach to HIV/AIDS 629–635
 mortality data collection 168–169
 SARS epidemic in urban area 965–968
 schistosomiasis re-emergence 139–144
- CIPHI *see* Commission on Intellectual Property Rights, Innovation and Public Health
- Circumcision, male, for HIV prevention 509–511
- Clearing houses for diagnostic testing 352–359
- Clinical trials
 vaccine, private-sector cooperation, in Pakistan 72–77
 WHO register 10–11, 336, 429–431, 513–514
- Clotrimazole, syndromic management of vaginal discharge in West Africa 729–738
- Cluster and systematic sampling methods, measuring mortality in Sudan 290–296
- Commission on Intellectual Property Rights, Innovation and Public Health (CIPHI)
 report 338, 349–351
 benchmarking progress 366–367
 call for government action 421–423
 industry perspective 419–420
- Communicable diseases *see* Infectious diseases
- Community
 -based reproductive and child health services in Ghana 949–955
 health insurance, enrolment in rural Burkina Faso 852–858
 outreach, TB case-finding, in rural Ethiopia 112–119
- Composite index of anthropometric failure 335
- Congo, Democratic Republic of, preventing vertical transmission of HIV 969–975
- Congo, Republic of
 melarsoprol *versus* eflornithine for late-stage Gambian trypanosomiasis 783–791
 treatment outcomes and risk factors for relapse in human African trypanosomiasis 777–782
- Contracting 842
 differing approaches in health systems 859–866
 as a form of privatization 910–913
 harms and benefits 850–851
 outsourcing of health services in Eastern Mediterranean Region 867–875
 performance-based financing and changing district health system, in Rwanda 884–889
 private providers in TB control programmes 876–883
 public–private partnerships for hospitals 890–896
 Rousseau's social contract 916–918
 setting ground rules and regulating practices 897–902
see also Public–private mix
- Corruption in health sector, new report 84–85
- Costs
 and cost-effectiveness of PPM-DOTS for TB control, in India 437–445
 TB and HIV control in public primary care facilities in South Africa 528–536
- Counterfeit drugs
 efforts against, in Nigeria 690
 WHO taskforce to fight 689–690
- D**
- Data collection
 cause of death *see* under Causes of death
 monitoring HAART in Botswana 127–131
 monitoring scale-up of antiretroviral therapy programmes 145–150
 mortality *see* Mortality, measuring
- Data sharing, and intellectual property in genomic epidemiology 382–387
- Death *see* Mortality
- Death certification/registration
 assessing cause of death without 246–253
 to estimate cause-specific mortality in United Republic of Tanzania 940–948
 quality of data, letters 254–256
 in South Africa 211–217
 in Thailand 233–238
- Demographic and Health Surveys (DHS) 162
 HIV testing 537–545
- Demographic Surveillance Systems (DSS) 163
- Dental caries prevention, first community trial of water fluoridation 759–764
- Dental health services, assessing children's oral health needs 36–42
- Depression screening for suicide prevention in Japan 492–493
- Developing countries
 access to AIDS medicines 342–344
 agriculture and health 984–990
 attitudes to proposed international patent treaty 344–346
 benchmarking intellectual property, and access to medicines 366–370
 causes of stillbirths and early neonatal deaths 699–705
 Demographic Surveillance Systems 163
 diagnostic tests in HIV management 581–588
 dual job holding by public sector health professionals 336
 effect of TRIPS on access to vaccines 360–365
 estimating incidence of self-poisoning 276–282
 estimating maternal mortality 173–180
 estimating mortality 162, 170–171
 ethics of routine HIV testing 52–57
 free access to journals 691–692
 health worker crisis 426
 improving triage and emergency care for children 314–319
 knowledge brokering to promote policy-making 608–612
 monitoring scale-up of antiretroviral therapy programmes 145–150
 pricing and purchasing of antiretroviral drugs 393–398
 promoting self-testing for HIV 999–1000
 public–private collaboration aiding TB case detection 752–758

Index

- quality of emergency care for children 258
- transfer of development models between 677–681
- using private providers to meet public health goals 427
- verbal autopsies *see* Verbal autopsies
- Development knowledge and experience, transfer from Bangladesh to Afghanistan 677–681
- Diabetes, surveillance system in Indian industrial populations 461–469
- Diagnostic testing
 - in HIV management 581–588
 - proposed clearing house 352–359
- Diagnostics Evaluation Scheme 594
- Diarrhoea, childhood
 - in complex emergencies 58–64
 - floculant–disinfectant for drinking-water, to control, in Guatemala 28–35
- Disability, prevention through prehospital trauma care 507
