

# Cardiovascular Working Group

## Internal Medicine Topic Advisory Group

### Tasks

The Cardiovascular Working Group within the Internal Medicine TAG is contributing to the revision of categories in the ICD relating to diseases of the cardiovascular system. Diseases of the circulatory system are principally found within Chapter 9 of ICD-10. The Working Group also formulates definitions and diagnostic criteria for the relevant categories, and suggests changes to the classification structure.

Rodney Franklin	Royal Brompton and Harefield NHS Trust	UK	
Samir Alam	American University of Beirut Medical Center	Lebanon	
Simon Capewell	University of Liverpool	UK	

\*\*Chair

Δ Managing Editor

### Progress

The Cardiovascular Working Group was formed under consultation by WHO and the TAG Internal Medicine. The Working Group has identified a managing editor for the alpha drafting of the ICD-11.

Discussions regarding changes to the linearization have started.
