

Endocrinology Working Group

Internal Medicine Topic Advisory Group

Tasks

The Endocrinology Working Group within the Internal Medicine TAG is contributing to the revision of categories in the ICD relating to diseases of the endocrine system. Diseases of the endocrine system are principally found within Chapter 4 of ICD-10. The Working Group also formulates definitions and diagnostic criteria for the relevant categories, and suggests changes to the classification structure.

Members

Name	Affiliation	Country	Contact
Akira Shimatsu**	National Hospital Organization, Kyoto Medical Center	Japan	ashimats@kyotolan.hosp.go.jp
Christopher Saudek**	Johns Hopkins Diabetes Center Former president of American Diabetes Association	USA

Leon Bach	Monash University	Australia	

**Co-Chairs

Progress

The Endocrinology Working Group was formed under consultation by WHO and the TAG Internal Medicine.

Discussions regarding changes to the linearization have started.
