

Internal Medicine Topic Advisory Group

Tasks

The Internal Medicine TAG reviews categories in ICD that relate to Internal Medicine. These diseases are found in several chapters of the ICD-10. The TAG formulates definitions and diagnostic criteria for the relevant categories, and suggests changes to the classification structure.

Members

Name	Working Group Chair	Affiliation	Country	Contact
**Kentarō Sugano	Internal Medicine TAG	Jichi Medical University	Japan	sugano@jichi.ac.jp
*Rodney Franklin	Internal Medicine TAG	Royal Brompton and Harefield NHS Trust	UK	r.franklin@rbht.nhs.uk

**Chair

* Co-Chair

Progress

The TAG Internal Medicine was formed under consultation with the WHO by the Japanese Society of Internal Medicine. The TAG met last for their third face-to-face meeting in Tokyo, Japan 6-7 April 2010.

Proposed edits to the linearization have been provided by:

- Nephrology WG
- Gastroenterology WG
- Haematology WG
- Hepatology and Pancreatobiliary WG
- Rheumatology WG
