

1 Overall activities

1 full day, 4 sessions ,19 attendant,3 WHO officers

3 posters (ICHI,ICPS,IHTSDO) 8 papers (ICD revision1 ICPS 2,ICF 1,ICHI 1,Mapping 1, Traditional Medecine 1 ,China Classification Health Intervention 1

Panel lively and review of the work plan

2 What has been done?

- Identify the similar projects and co-operations: done:
 1. ETC
 1. ClaML attributes integrated in the ICD Revision content model
 2. FDC
 1. ICHI (Poster and paper) , ICPC, ICNP, ICPS (Poster and papers)
 3. FDRG
 1. ICF ontology :paper
 4. HIM TAG ICD revision :presentation
 5. ISO mapping traditional medicine(ICTM) and ISO standards:paper
 6. ICPS 5 layer model :Poster and papers

2.To advise on the common body of terminologies for “binding to ontologies /categorical structures” in the ICD-11 information model : done

1 meeting Geneva December 2008

2meeting Stanford May 2009

3Monthly Tel Conf of HIM TAG

4Him tag google site document

5Presentation ICD revision Seoul

3ToAssess mapping practices and procedures between WHO-FIC and terminologies and recommended best practices :

1 Information on IHTSDO work :Poster and paper To consider & advise what members of the common body apply to the FIC information model : done

2 ICF ontology meeting Notwill December 2008

3 ICD revision content model body function to be shared by ICF and ICD:him tag site

4 Him tag content model anatomical site or body structure to be shared by several terminologies:ICD,ICF,ICHI (google site)

5 Investigate information model for multilingual terminology :

6 Him tag content model and lexical requirements

7 ICPS ontology driven 5 layer multilingual tools(poster and paper)

- 4 Communicate terminology issues to SDO and international fora : done marie and ongoing
 - a. Governmental meeting Paris,january 2009
 - b. ISO TC 215 meeting Edinburgh April 2009
 - c. Medical informatics Nice, April 2009
 - d. ICBO buffalo,July 2009
 - e. MIE09 Sarajevo September 09

7 Gather human resources to build and share ideas done but

- Web forum

8 Raise terminology ontology issues during the WHO meetings

- ICD revision process
- ICF
- ICHI
- ICPS
- Mapping ICD,ICF,SNOMED CT,ICTM
-

2 Panel discussions

- Trg shall coordinate by a common framework of x layer system
- To share understanding with reference groups and sdo
- Approved ,validated share
- Icf terminology mobility and iso
- Joint initiative council
- How classifications linkage is established Same platform with partners in standardisation
- Interconnexion of terminologies
- Interfaces terminologies vs reference terminologies:ex who art
- Linguistic or culture
- Multilingualism vs ontology
- Pragmatic old way

Trg work plan review Vincenzo della mea

Activity	Classification	Task Owner/ Committee	Carried out by	Network Partners	Users	Key Tasks 2009 - 2010
	FIC	TRG	FDC, ETC, WHO	TRG and IC network and IHTSDO		follow up
Product:	FIC	TRG	FDC, ETC, WHO	TRG and IC network		Review of literature to identify experts and procedures
Product:	ICF	TRG	FDC, ETC, WHO	TRG and IC network		Consider survey of vendors to identify experts and procedures
Product:	ICF	TRG	FDC, ETC, WHO	TRG and IC network		Convene expert panel to advise TRG on issues and best practices (virtual or perhaps in person)
Activity: Participate in joint WHO- IHTSDO activities as requested by Secretariat	FIC	TRG	WHO	IC network		Specific activities await development of workplan by WHO and IHTSDO
