Biography for Sarah Wild

Sarah Wild did her medical training in London and Cambridge. Her postgraduate experience included general medicine and diabetes, general practice and public health medicine, a fellowship at Stanford University and a PhD at the London School of Hygiene and Tropical Medicine. She enjoyed a secondment to the World Health Organization to work on global burden of disease estimates for diabetes for the year 2000. Sarah moved to the University of Edinburgh in 2002 and is now professor of epidemiology and honorary consultant in public health at Lothian NHS Board. Her main research interests are the epidemiology and prevention of diabetes and other non-communicable diseases and the use of routine data for research.
