**Professor Stephen Colagiuri**

Stephen Colagiuri is Professor of Metabolic Health, Director of The Boden Institute and Solutions Domain Leader at the Charles Perkins Centre at the University of Sydney. He is also Co-Director, World Health Organization (WHO) Collaborating Centre on Physical Activity, Nutrition and Obesity.

He is a clinical academic and researcher with a focus on the development and implementation of evidence-based guidelines for diabetes prevention and care; epidemiological, health service, translational and health economic research. He was the chief investigator of the Sydney Diabetes Prevention Program funded by the NSW Department of Health. Internationally he has worked with the WHO and the International Diabetes Federation (IDF) in guideline development and implementation. He is a CI on an NHMRC Program Grant on translation of diabetes and obesity evidence.

He has previously served as President of the Australian Diabetes Society and Chair of the International Diabetes Federation Task Force on Clinical Guidelines. He was a member of the Diabetes Expert Advisory Committee of the Commonwealth Department of Health and an advisor on diabetes to the World Health Organization.

Professor Colagiuri was the Editor-in-Chief of the IDF journal, Diabetes Research and Clinical Practice from 2008 to 2016. He has authored over 260 peer-reviewed papers in a range of international journals. Awards include an award from the IDF (2011), Diabetes Australia – Outstanding Achievement Award for Diabetes. Research Australia Awards (2014) and the Australian Diabetes Society Kellion Award (2015). In 2017 he was made an Order of Australia (AO) for national and international services to diabetes.
