WORLD HEALTH DAY 2002

The North Karelia Project (NKP) has made an agreement with the Ministry of Social Affairs and Health of Finland that the main event of the World Health Day (WHD) in Finland will be organized in Joensuu, the capital of North Karelia, on the 7th of April 2002 at 1 p.m.. The main organizer will be the North Karelia Project with its local collaborators. The planning of WHD is supported by eg. National Public Health Institute, Finnish Heart Association, UKK-Institute and Ministry of Social Affairs and Health.

The main WHD 2002 event in Finland is patroned by the President of Finland, Mrs. Tarja Halonen. Mr. Osmo Soininvaara, Minister of Health, will have welcoming address in the WHD event in Joensuu.

We would kindly ask the WHO/HQ to send its representative to North Karelia and have words of greetings in the WHD 2002 main event in Finland. This would be very important, not only for WHD, but for the reason that the North Karelia Project started on the 7th of April in 1972, so the thirty years of NKP will be celebrated in the WHD event.

With Kind Regards
The North Karelia Project
