# EVIPNet Factsheet

**Vision:** EVIPNet envisions a world in which policy-makers and other stakeholders in low- and middle-income countries (LMICs) use the best available research evidence to inform policy-making for health.

**Mission:** EVIPNet’s mission is to promote a network of partnerships at the national, regional and global levels among health system policy-makers and other stakeholders (including civil society, health professionals, health managers, researchers, and funders) to strengthen health systems and improve health outcomes through regular access to, assessment, adaptation and use of context specific research evidence.

## People trained

**1160**

Training through capacity building workshops of policymakers, researchers, program managers, parliamentarians, librarians, representatives of civil society.

## Capacity building workshops

**70**

Capacity building workshops
