

***Joint FAO/WHO Meeting on Pesticide Residues (JMPR)  
Roster of Toxicological and Epidemiological Experts***

This roster consists of scientific experts who have either submitted applications in response to the call for experts or are members of the Expert Panel on Food Safety. The applications were reviewed by an outside referee and by the WHO Joint Secretary of JMPR and selections were made on the basis of the criteria outlined in the call for experts. Members of the roster will be considered for future Joint Meetings on Pesticide Residues and for other activities relating to pesticide residues in food, but inclusion on the roster does not guarantee such participation. When making selections for individual meetings a balance of scientific expertise and geographical representation will be considered. Both Members and Temporary Advisers are chosen from the roster.

The roster is dynamic. Experts are placed on it for an initial period of four years or until their terms on the Expert Panel on Food Safety expire, and new experts are added on the basis of consideration of new applications.

<b>Last name</b>	<b>First name</b>	<b>Affiliation</b>	<b>Country</b>
Adcock	Catherine	Pest Management Regulatory Agency	Canada
Adu-Kumi	Sam	Environmental Protection Agency	Ghana
Aerts	Marc	Hasselt University	Belgium
Aguila	Miriam Cecilia	Center for Veterinary Medicine	United States
Barton	Hugh A.	Pfizer, Inc.	United States
