

Mexico

Country indicators*	Population (000s)	121,000	Total health expenditure (%GDP)	6.2
	GNI per capita (PPP Int \$)	16,450	ICT Development Index rank	83
	Physician density (per 10 000 population)	1.96	Mobile-cellular subscriptions (% inhabitants)	83.35
	Nurse and midwife density (per 10 000 population)	3.98	Internet users (% of individuals)	38.4
	Hospital bed density (per 10 000 population)	16	Maternal mortality ratio (per 100 000 live births)	50
	Life expectancy at birth (years)	75	Infant mortality rate (per 100 000 live births)	7 [5-10]

eHealth policy/strategy

Status of eHealth and women's and children's health policy/strategy

National eHealth policy/strategy exists	Yes
Year adopted	Before 2000
Implementation status	Yes
Refers to the use of eHealth in women's and children's health policy/strategy	
Special funding allocated for implementation	

Women's and children's health

National policy/strategy for women's and children's health exists	Yes
Policy/strategy refers to the use of eHealth, mHealth or social media	Yes

eHealth systems

An overview of the types of eHealth systems in place, their purpose and level

Electronic information system collects and reports births, deaths and causes of death data	Yes – full coverage
Year introduced	Before 2000
At least one electronic information system exists at the district level to collect and report health data	Yes
Resource tracking system in place to report total health expenditure by financing source, per capita	
Type of resource tracking system	Electronic
Resource tracking system level	National level
Resource tracking system in place to report total reproductive, maternal, newborn, and child health (RMNCH) expenditure by financing source, per capita	Yes
Type of resource tracking system	Electronic
Resource tracking system level	

Monitoring the status of women's and children's health

An overview of the measurement of the 11 CoIA indicators by monitoring frequency and format

Indicator measured	Monitor	Frequency	Format: Paper, Electronic, or Both
Maternal mortality ratio	Yes	Every year	Electronic
Under 5 child mortality with the proportion of newborn deaths	Yes	Every year	Electronic
Children under 5 who are stunted			
Met need for contraception	No	Every year	Both**
Antenatal care coverage	Yes	Every year	Both
Prevention of mother-to-child HIV transmission (PMTCT)	Yes	Every year	Electronic
Skilled attendant at birth	Yes		Both
Postnatal care for mothers and babies	No		
Exclusive breastfeeding for six months	No		
3 doses of the combined diphtheria, pertussis and tetanus vaccine			
Antibiotic treatment for pneumonia			

eHealth initiatives – national overview

eHealth supports major women's and children's health initiatives	Yes
Funding sources	Public funding

Possible barriers to implementing eHealth services

The most important barriers hindering the implementation of eHealth services

Leadership, governance and policy - country policy or strategy does not include eHealth as an approach to support women's and children's health	Yes
Legal - lack of legal frameworks to support implementation of eHealth services	Yes
