

First Global Patient Safety Challenge

Clean Care is Safer Care

Save Lives: Clean Your Hands

Train the Trainers Workshop

26 August 2009

Room 205, World Health Organization, Geneva, Switzerland

Overview of the Workshop

Venue	WHO HQ, Geneva, M building Room 205
Purpose of the Training Workshop	To provide a 'train the trainers' session for identified campaigning country leads
Objectives of the Training Workshop	By the end of the workshop, the participants should be able to: <ul style="list-style-type: none"> • Outline the key elements of the role of hand transmission in HCAI • Outline the WHO Guidelines on Hand Hygiene in Health Care and implementation strategy to prevent HCAI • Describe the available implementation tools and how and when they can be used • Understand how to apply the Five-Step approach to improving hand hygiene compliance • Explain the "My Five Moments for Hand Hygiene" approach • Explain the method for undertaking observation of hand hygiene practices • Be confident in training others on the above aspects and formulate an action plan for undertaking this training within their countries/WHO Region
Expected Outcome	<ul style="list-style-type: none"> • Participants will be confident to effectively train others on the hand hygiene implementation and improvement strategy • Participants will be in a position to consider how they will communicate within the WHO Region to ensure plans are in place to support each other in scale-up and sustainability of hand hygiene compliance
Pre Workshop Information	Other relevant information regarding WHO's multimodal improvement strategy and SAVE LIVES: Clean Your Hands will have been gathered during the technical meeting
