

Health Surveillance System

Project Summary Sheet

Project	Health Surveillance System
Sector	Health
Area of Operations	(geographical area: <i>District, Region, and Country</i>)
Target population	(the <i>population living in the area covered by the project</i>)
Implementing Agency	WHO in collaboration with local health agencies, NGOs, Red Cross Associations, UN, RBM Complex Emergency Team and Technical Support Network, others...
Timeframe	...(expected duration, rather than precise dates)....
Objective epidemics	To monitor disease burden and provide early warning of
Funds requested (from the international community).....

Background.:

Current status of health surveillance system(s)

3How many systems

3What diseases/syndromes are reported and with what frequency

3By whom (provincial/district health officers, NGOs, specific reporting systems for displaced populations)

3Performance/coverage

3Data analysis by whom

3Data feedback by whom

What are weaknesses and gaps of current health surveillance systems to be addressed?

Justification of chosen target population:

3the whole population or

3high risk groups such as displaced persons, nomadic populations, groups at risk for specific endemic/epidemic diseases

In this context, WHO intends to contribute to ...(the *global objective*).... by monitoring disease burden and provide early warning of epidemics.

Activities: WHO will

3Assess/review current surveillance systems

3Develop and distribute case definitions, registration material and reporting forms

3Develop and distribute guidelines on reporting mechanisms

3Ensure establishment of reporting mechanisms from health facilities to peripheral and central level

3Strengthen links to lab network to ensure prompt reporting of laboratory confirmed cases

3Support scaling up of rapid communication pathways (radio, internet, etc.)

3Design software package for data entry and analysis at central and peripheral level

3Recruit/train local staff for data entry and analysis at central and peripheral level

- 3 Train national and NGO health workers on surveillance, data collection and analysis
- 3 Establish training programmes for health care workers in the use of case definitions, registration material and reporting forms
- 3 Develop, print and disseminate monthly publication on health situation for all partners eg Health Newsletter, Update

In relation to each chosen activity, mention:

3 who will deliver

3 partnerships

3 synergy with other projects (included or not in the CAP appeal), especially on the support functions of the surveillance system (link with activities of Polio Eradication Initiative, communication, training, supervision, resource-provision)

Special emphasis will go on.... (if applicable: essential strategy notes).

Institutional arrangements and inputs. Activities will be implemented by WHO, in collaboration with (*name of Division and Department of the national Ministry and/or UN agency involved*) and(other partners, as applicable).....

WHO will contribute to the project.... (*this may include other donors' contributions*).....
 Additional assistance is needed in order to.....

Outputs, reporting and evaluation. The activities above are expected to produce..... (*list the outputs: only substantives are needed, NO verbs*).

Technical and administrative reports will be submitted by WHO to the donor (and *the national authorities, if applicable*) every A joint evaluation will be conducted by WHO,..... and..... on.....

Budget	USD
WHO epidemiologist and technical expertise	
Development, translation and printing of guidelines	
Local support staff including information officer, data entry clerk and secretarial support	
Computer hardware and software at central and peripheral level
Communications equipment eg radio, fax, internet	
Transport
Training workshops
Total costs (1)
Total available (2. <i>from *** or other donors</i>)
Total requested (3.= 1-2)
