

Hinari new login procedure

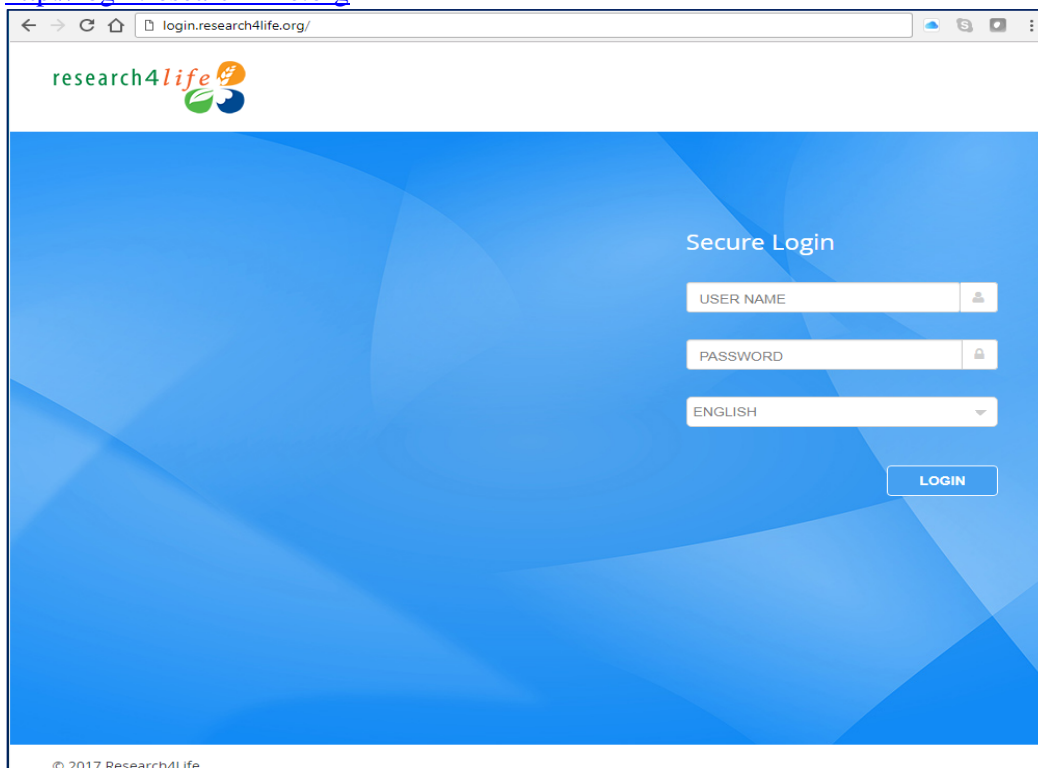

July 4, 2017

(1) Login from the Hinari website: <http://www.who.int/hinari/en/>

The screenshot shows the Hinari website homepage. At the top, there is a navigation bar with language options: عربي, 中文, English, Français, Русский, and Español. The Hinari logo is prominently displayed on the left. A search bar and a 'Log in' button are located in the top right. The main content area features a sidebar with links: Hinari, About Hinari, Access the content, Eligibility, Partners, Training materials, Promoting Hinari, and Contributions. The central section is titled 'Hinari Access to Research for Health programme' and contains a paragraph describing the program's scope and resources. Below this, there are links to a 'Map of country breakdown 2017' and 'Eligible Countries 2017'. A news item titled 'Honduras: The National Medical Library Activities to Improve Access to Hinari/Research4Life resource databases (9 June 2017)' is also visible, accompanied by the Medical Library Association (MLA) logo. On the right side, there are sections for 'Give to Hinari', 'Portuguese Hinari website', and 'Other Sister Programmes with', which includes logos for research4life and GORA (Research in Agriculture).

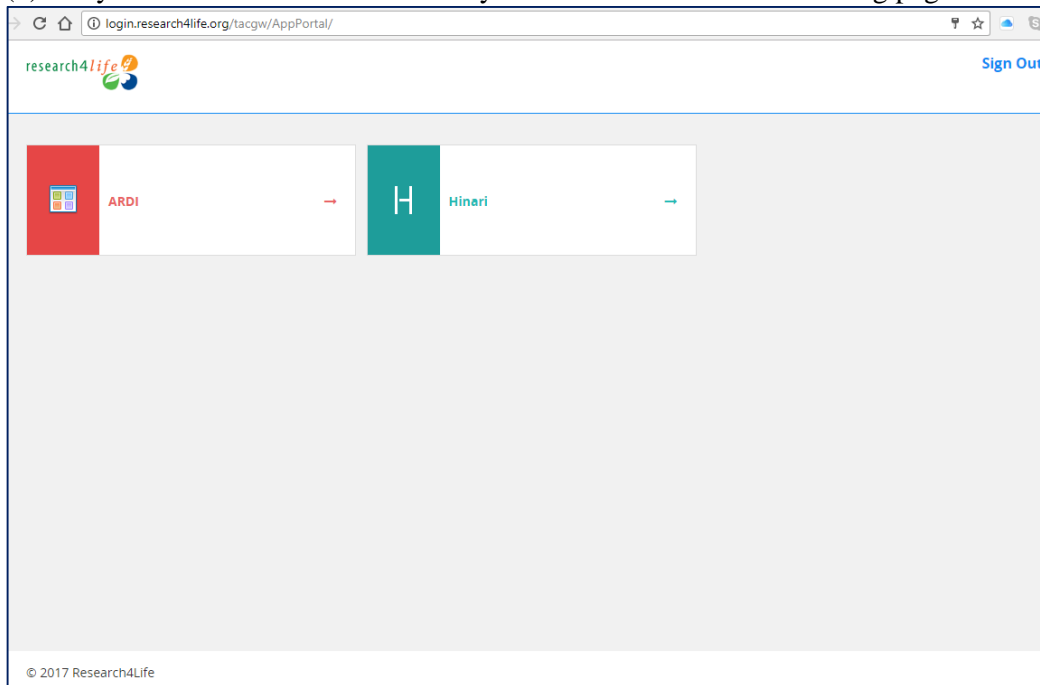

(2) From the Hinari website you will be redirected to the Research4Life login page: <http://login.research4life.org>

The screenshot shows the Research4Life login page. The page has a blue background with a white header containing the research4life logo. The main content area is titled 'Secure Login' and features three input fields: 'USER NAME' with a user icon, 'PASSWORD' with a lock icon, and a dropdown menu set to 'ENGLISH'. A blue 'LOGIN' button is positioned below the input fields. At the bottom left, the copyright notice '© 2017 Research4Life' is visible.

This is a common login page for all programmes.

(3) Fill your UserID and Password and you will arrive to the new landing page

If your institution is registered for more than one programme, the access points will appear here. You will no longer need to sign out and reconnect using a different UserID. Each programme will open in a new tab.

Lastly, also note that now there is a "Sign Out" button on the top right
