

APDIME Toolkit

Resources for HIV/AIDS Program Managers

• GETTING STARTED

• TOOLKIT LIBRARY

• ORDER CD-ROM

The Synergy **APDIME Toolkit** is a resource to support program designers and managers in HIV/AIDS prevention, care and support programming in the developing world.

The **APDIME Toolkit** is a window through which you can learn from program outcomes, training guides and research findings. We guide you to tools including worksheets, budget templates, survey instruments, data, and software produced by many experienced organizations in HIV/AIDS programming around the world. You can use the ideas and tools that suit your needs, project design and management efforts.

ASSESSMENT | PLANNING | DESIGN | IMPLEMENTATION MONITORING | EVALUATION
