The designations employed and the presentation of the material in this publication do not imply the expression of any opinion whatsoever on the part of the World Health Organization concerning the legal status of any country, territory, city or area or of its authorities, or concerning the delimitation of its frontiers or boundaries. Dotted lines on maps represent approximate border lines for which there may not yet be full agreement. The mention of specific companies or of certain manufacturers' products does not imply that they are endorsed or recommended by the World Health Organization in preference to others of a similar nature that are not mentioned. Errors and omissions excepted, the names of proprietary products are distinguished by initial capital letters.

All reasonable precautions have been taken by the World Health Organization to verify the information contained in this publication and in the preparation of the summaries. However, the published material is being distributed without warranty of any kind, either express or implied. The responsibility for the interpretation and use of the material lies with the reader. In no event shall the World Health Organization be liable for damages arising from its use.

The inclusion of, or reference to, particular governmental legislation, regulations or other legal, administrative or procedural instruments, or summaries or abstracts thereof, shall not imply or constitute an endorsement of any such instruments or summaries, but are provided for informational purposes only. The text in the language version(s) published officially by the government from which it originates should be considered as authentic.

The inclusion of links to external websites does not imply or constitute an endorsement of those sites by WHO, but are provided for information purposes only. WHO accepts no responsibility for the validity or accuracy of the content of those sites.
