Pandemic Influenza Prepared Framework Review

Dr Christine M Kaseba
Chair of the Review Group
What is PIP?

- Adopted by WHA65 (2011)
- Ambitious & innovative public health arrangement to increase global preparedness to respond to pandemic influenza
  - Improve sharing of influenza viruses with pandemic potential with GISRS
  - Ensure access to vaccines and other life saving products during a pandemic

- Brings together Member States, industry, civil society organizations, other key stakeholders, and WHO
Review background

→ First review guided by Section 7.4.2

→ 8 expert members

→ All six WHO regions represented

→ Good gender balance
Method of work

➔ Three main themes
  – Virus sharing
  – Benefit sharing
  – Governance and linkages with instruments

➔ Key questions
  – Achievements
  – Preparedness capacity
  – Collateral benefit
  – Challenges
