**Introduction**

This survey is designed to collect preliminary information which will be used to guide the upcoming regional consultation session. Prior to the regional consultations, please review and provide responses to the questions below.

**GMAP Questions**

1) Are you familiar with GMAP and its functions?
2) How did you make use of the current GMAP?
3) Did you face any challenges in implementing GMAP?
   If yes, which?
4) Do you think these challenges will continue to exist during the timeframe of GMAP2?
5) How do you think they could be overcome?
6) What needs to happen in the next decade to accelerate malaria reduction and elimination?
7) How can that be made to happen?
8) Which stakeholders will need to come on board?
9) What needs to be included in GMAP2 to enable you to mobilise new stakeholders and resources?

Proposed contents of GMAP2

Part 1) Overview
- Role of RBM partnership
- Progress under GMAP
- How GMAP2 builds on GMAP
- Summary of GTS

Part 2) Developing a business case for malaria reduction

Part 3) Mobilising people and resources
- Creating an effective multisectoral response
- Incentivizing partners to engage and commit (global, regional level)
- Creating a social movement for an effective malaria response

Part 4) Accelerating action on the pathways to elimination
- Pre-empting common barriers through the business case approach
- Encouraging accountability and maintaining momentum
- Facilitating alignment
- Overcoming implementation challenges (e.g. related to scale-up, elimination, preventing re-introduction, etc.)
1. Developing a business case for malaria reduction
   - Impact of malaria on different group of people
   - Who and how much is being invested
   - What is the expected return of investment

2. Mobilising people and resources
   - Communication and advocacy
   - Extent of multisectoral engagement including barriers
   - Could the country invest additional resources if engaged differently?

3. Accelerating action on the pathways to elimination
   - Identify bottle necks in the implementation of malaria control
   - Accountability issues
   - What linkages are needed between GMAP 2 for global and regional processes?
