I. Epidemiological profile

Population

</tbody>
</table>

II. Intervention policies and strategies

- **ITN**: ITNs/LLINs distributed free of charge
- **Larval control**: Use of larval control recommended
- **IPT**: IPT used to prevent malaria during pregnancy
- **Diagnosis**: Patients of all ages should receive diagnostic test
- **Treatment**: ACT is free for all ages in public sector

III. Financing

**Sources of financing**

**Antimalarial medicines**

- IN: 2005
- RDT: 2010

**Antimalarial use**

- ACTs as % of total antimalarials received by <5 (survey)
- ACTs as % of all antimalarials received by <5 with finger/heel stick (survey)
- Cases tracked
- Cases tested and treated in public sector

IV. Coverage

**ITN and IRS coverage**

V. Impact

- Confirmed malaria cases per 1000 and ABER
- Malaria admissions and deaths (per 100 000)

**Impact**: Insufficiently consistent data to assess trends
