1. INTRODUCTION

1.1 Objective of the RFP

The purpose of this Request for Proposals (RFP) is to enter into a contractual agreement with a successful bidder and select a suitable contractor to develop and maintain the website of the Network for Improving Quality of Care for Maternal, Newborn and Child Health.

WHO is an Organization that is dependent on the budgetary and extra-budgetary contributions it receives for the implementation of its activities. Bidders are, therefore, requested to propose the best and most cost-effective solution to meet WHO requirements, while ensuring a high level of service.

1.2 About WHO

1.2.1 WHO Mission Statement

The World Health Organization was established in 1948 as a specialized agency of the United Nations. The objective of WHO (www.who.int) is the attainment by all peoples of the highest possible level of health. "Health", as defined in the WHO Constitution, is a state of complete physical, mental and social well being and not merely the absence of disease or infirmity. WHO's main function is to act as the directing and coordinating authority on international health work.

1.2.2 Structure of WHO

The World Health Assembly (WHA) is the main governing body of WHO. It generally meets in Geneva in May of each year and is composed of delegations representing all 194 Member States. Its main function is to determine the policies of the Organization. In addition to its public health functions, the Health Assembly appoints the Director-General, supervises the financial policies of the Organization, and reviews and approves the proposed programme budget. It also considers reports of the WHO Executive Board, which it instructs with regard to matters upon which further action, study, investigation or report may be required.

The Executive Board is composed of 34 members elected for three-year terms. The main functions of the Board are to give effect to the decisions and policies of the WHA, to advise it and generally to facilitate its work. The Board normally meets twice a year; one meeting is usually in January, and the second is in May, following the World Health Assembly.

The WHO Secretariat consists of some 7,900 staff at the Organization's headquarters in Geneva, in the six regional offices and in countries. The Secretariat is headed by the Director-General, who is appointed by the WHA on the nomination of the Executive Board. The head of each regional office is a Regional Director. Regional directors are appointed by the Executive Board in agreement with the relevant regional committee.

1.2.3 Description of Cluster/Service/Unit

The staff of the Department of Maternal, Newborn, Child and Adolescent Health (MCA) strive towards a world in which EVERY woman, newborn, child and adolescent realizes their right to physical and mental health and well-being.

To do this we:

1. Develop guidelines

   Identify research priorities, generate evidence and develop guidelines on major causes of mortality, parameters for wellbeing, and necessary conditions of health-enabling environments for women, newborns, children and adolescents.

2. Ensure universal health coverage

   Improve quality and achieve universal health coverage of essential health services for maternal, newborn, child and adolescent health while in tandem empowering individuals, families and communities to achieve their right to survive, thrive and transform their living environments.
3. Evaluate
Assess quality and monitor effective coverage of essential health services for maternal, newborn, child and adolescent health and evaluate programmes to ensure accountability, progress in people-centred care, and empowerment of individuals, families and communities over their health.
The work of the Department is inextricably linked to the Global Strategy for Women's, Children's and Adolescents' Health, 2016–2030. The Global Strategy, closely in sync with the Sustainable Development Goals (SDGs), sets out a roadmap to end preventable deaths of women, children and adolescents (SURVIVE), to ensure their health and well-being (THRIVE), and their habitation in safe and health enabling environments (TRANSFORM).

2. BACKGROUND: DESCRIPTION OF PRESENT ACTIVITIES

If any: description of the existing activities currently undertaken by WHO/HQ/FWC/MCA and related to the objective of this Request for Proposals.

2.1 Overview and current approach

Globally, the rate of skilled care during childbirth has increased from 58% in 1990 to 73% in 2013, mostly due to increases in facility-based births. However, evidence shows that giving birth in a health facility with a ‘skilled’ attendant is not sufficient to reduce maternal and newborn deaths and severe morbidity. Many women and their babies die from poor care practices, even after reaching a health facility.

Improving quality of care and patient safety are therefore critical if we want to accelerate reductions in maternal and newborn mortality.

The World Health Organisation (WHO), UNICEF, UNFPA and partners have launched the Network for Improving Quality of Care for Maternal, Newborn and Child Health (Quality of Care Network) mid February 2017 in Lilongwe, Malawi. The QoC Network brings together countries and partners to deliver a vision where ‘every pregnant woman and newborn receives quality care throughout pregnancy, childbirth and the postnatal period’. This vision will be achieved through the implementation of evidence-based quality improvement interventions and standards of care, and country leadership will be at the heart of success.

The Quality of Care Network’s goals are to

- Reduce maternal and newborn mortality in health facilities in target country districts by 50% over five years and to halve intra-partum stillbirths;
- Improve experience of care.

In 2017-2019, the Quality of Care Network will initially involve ten countries that are already taking leadership to improve quality of care in health services: Bangladesh, Côte d’Ivoire, Ethiopia, Ghana, India, Malawi, Nigeria, Sierra Leone, Tanzania, and Uganda. Led by the Ministry of health, the Quality of Care Network brings together health care professionals and providers, technical and funding partners to foster, accelerate and sustain quality of care. More countries will be joining the Quality of Care Network in subsequent years.

One of the implementation mechanisms of this Network is a Learning Platform, intended to provide a full package of information and space to discuss how to deliver quality of care. It will assemble, for local adaptation, the considerable information and experience that already exist on how to improve quality of care, as well as new knowledge that each country will generate while implementing and scaling up the quality of care interventions.

2.2 Objectives of the present activity

WHO’s Department for Maternal, Newborn, Child and Adolescent Health (MCA) is now looking to contract a company to develop the website as the virtual face of the global Learning Platform to replace the current website www.qualityofcarenetwork.org.

2.3 Activity coordination
The company will work directly with the MCA's division communication consultant; the company's work will be coordinated by Blerta Maliqi, from the MCA team.

Please note that WHO is not bound to select any bidder and may reject all proposals. Furthermore, since a contract would be awarded in respect of the proposal which is considered most responsive to the needs of the project concerned, due consideration being given to WHO’s general principles, including economy and efficiency, WHO does not bind itself in any way to select the bidder offering the lowest price.

5.2 Clarification of Proposals

WHO may, at its discretion, ask any bidder for clarification of any part of its proposal. The request for clarification and the response shall be in writing. No change in price or substance of the proposal shall be sought, offered or permitted during this exchange.

5.3 Evaluation of Proposals

The following procedure will be utilized in evaluating the proposals, with technical evaluation of the proposal being completed prior to any focus on or comparison of price.

The evaluation panel will evaluate the technical merits of all the proposals which have passed the Preliminary Examination of proposals based on the following weighting:

<table>
<thead>
<tr>
<th>Technical Weighting:</th>

</thead>
<tbody>
<tr>
<td>Financial Weighting:</td>
<td>40 % of total evaluation</td>

- the manner in which it is proposed to manage and staff the project;

If required, the presentation will be held at WHO or by tele/videoconference.

NOTE: Other presentations and any other individual contact between WHO and bidders is expressly prohibited both before and after the closing date for submission of proposals.
6. AWARD OF CONTRACT

6.1 Award Criteria, Award of Contract

WHO reserves the right to

a. Award the contract to a bidder of its choice, even if its bid is not the lowest;

b. Award separate contracts for parts of the work, components or items, to one or more bidders of its choice, even if their bids are not the lowest;

c. Accept or reject any proposal, and to annul the solicitation process and reject all proposals at any time prior to award of contract, without thereby incurring any liability to the affected bidder or bidders and without any obligation to inform the affected bidder or bidders of the grounds for WHO's action;

d. Award the contract on the basis of the Organization’s particular objectives to a bidder whose proposal is considered to be the most responsive to the needs of the Organization and the activity concerned;

WHO has the right to eliminate bids for technical or other reasons throughout the evaluation/selection process. WHO shall not in any way be obliged to reveal, or discuss with any bidder, how a proposal was assessed, or to provide any other information relating to the evaluation/selection process or to state the reasons for elimination to any bidder.

NOTE: WHO is acting in good faith by issuing this RFP. However, this document does not oblige WHO to contract for the performance of any work, nor for the supply of any products or services.

6.2 WHO’s Right to modify Scope or Requirements during the Evaluation/Selection Process

At any time during the evaluation/selection process, WHO reserves the right to modify the scope of the work, services and/or goods called for under this RFP. WHO shall notify the change to only those bidders who have not been officially eliminated due to technical reasons at that point in time.

6.3 WHO’s Right to Extend/Revise Scope or Requirements at Time of Award

WHO reserves the right at the time of award of contract to extend, reduce or otherwise revise the scope of the work, services and/or goods called for under this RFP without any change in the base price or other terms and conditions offered by the selected bidder.

6.4 WHO’s Right to enter into Negotiations

WHO also reserves the right to enter into negotiations with one or more bidders of its choice, including but not limited to negotiation of the terms of the proposal(s), the price quoted in such proposal(s) and/or the deletion of certain parts of the work, components or items called for under this RFP.

6.5 Signing of the Contract

Within 30 days of receipt of the contract, the successful bidder shall sign and date the contract and return it to WHO according to the instructions provided at that time. WHO reserves the right to publish (e.g. on the procurement page of its internet site) or otherwise make public information regarding contracts awarded, including contractors' names and addresses, a description of the goods or services provided and their value.

7. GENERAL AND CONTRACTUAL CONDITIONS

• clear deliverables, timelines and acceptance procedures;
• payment terms tied to the satisfactory performance and completion of the work;
• notices.

The prices payable by WHO for the work to be performed under the Contract shall be fixed for the duration of the Contract and shall be in a UN convertible currency (preferably US Dollars), based on the UN exchange rate of the date of invoice. Unless otherwise specified in the Contract, in the event that the Contract is a Long-Term Agreement ("LTA"), the Contractor shall offer the same prices and terms as those agreed with WHO under the Contract to other interested United Nations system agencies and to organizations eligible to purchase through WHO, it being understood that each such agency and organization will be responsible for independently entering into and administering its own contract with the Contractor. The Contractor shall take into account the additional quantities of services purchased by all United Nations system agencies and other organizations as aforesaid to further reduce the prices for WHO and such other agencies and organizations.
Any and all of the Contractor's (general and/or special) conditions of contract are hereby explicitly excluded from the Contract, i.e., regardless of whether such conditions are included in the Contractor's offer, or printed or referred to on the Contractor's letterhead, invoices and/or other material, documentation or communications.

7.2 Responsibility

The Contractor will be responsible to ensure that the work performed under the Contract meets the agreed specifications and is completed within the time prescribed. 7.3 Source of Instructions

The Contractor shall neither seek nor accept instructions from any authority external to WHO in connection with the performance of the work under the Contract. The Contractor shall refrain from any action which may adversely affect WHO and shall fulfil its commitments with the fullest regard to the interests of WHO.

7.4 Warranties

The Contractor warrants and represents to WHO as follows:

1) The deliverables shall meet the specifications called for in the Contract and shall be fully adequate to meet their intended purpose. The Contractor furthermore warrants that the deliverables shall be error-free. The Contractor shall correct any errors in the deliverables, free of charge, within fifteen days after their notification to the Contractor, during a period of at least one year after completion of the work. It is agreed, however, that errors and other defects which have been caused by modifications to the deliverables made by WHO without agreement of the Contractor are not covered by this paragraph.

2) The deliverables shall, to the extent they are not original, only be derived from, or incorporate, material over which the Contractor has the full legal right and authority to use it for the proper implementation of the Contract. The Contractor shall obtain all the necessary licenses for all non-original material incorporated in the deliverables (including, but not limited to, licenses for WHO to use any underlying software, application, and operating deliverables included in the deliverables or on which it is based so as to permit WHO to fully exercise its rights in the deliverables without any obligation on WHO's part to make any additional payments whatsoever to any party.

3) The deliverables shall not violate any copyright, patent right, or other proprietary right of any third party and shall be delivered to WHO free and clear of any and all liens, claims, charges, security interests and any other encumbrances of any nature whatsoever.

suppliers.

Contractor furthermore warrants and represent that the information provided by it to WHO in response to the RFP and during the bid evaluation process is accurate and complete. Contractor understands that in the event Contractor has failed to disclose any relevant information which may have impacted WHO’s decision to award the Contract to Contractor, or has provided false information, WHO will be entitled to rescind the contract with immediate effect, in addition to any other remedies which WHO may have by contract or by law.

7.5 Legal Status

The Contractor shall be considered as having the legal status of an independent contractor vis-à-vis WHO, and nothing contained in or relating to the Contract shall be construed as establishing or creating an employer/employee relationship between WHO, on the one hand, and the Contractor or any person used by the Contractor in the performance of the work, on the other hand.

Thus the Contractor shall be solely responsible for the manner in which the work is carried out. WHO shall not be responsible for any loss, accident, damage or injury suffered by the Contractor or persons or entities claiming under the Contractor, arising during or as a result of the implementation or execution of the Contract, including travel, whether sustained on WHO premises or not.

The Contractor shall obtain adequate insurance to cover such loss, accident, injury and damage, before commencing work on the Contract. The Contractor shall be solely responsible in this regard and shall handle any claims for such loss, accident, damage or injury.

7.7 No Waiver

The waiver by either Party of any provision or breach of the Contract shall not prevent subsequent enforcement of such provision or excuse further breaches.

7.8 Liability

The Contractor hereby indemnifies and holds WHO harmless from and against the full amount of any and all claims and liabilities, including legal fees and costs, which are or may be made, filed or assessed against WHO at any time and based on, or arising out of, breach by the Contractor of any of its representations or warranties under the Contract, regardless of whether such representations and warranties are explicitly incorporated here in or are referred to in any attached Appendices.

7.11 Indemnification

The Contractor shall indemnify and hold WHO harmless, from and against the full amount of any and all claims and liabilities, including legal fees and costs, which are or may be made, filed or assessed against WHO at any time and based on, or arising out of, the acts or omissions of the Contractor, or the Contractor's employees, officers, agents, partners or sub-contractors, in the performance of the Contract. This provision shall extend, inter alia, to claims and liabilities in the nature of workmen's compensation, product liability and liability arising out of the use of patented inventions or devices, copyrighted material or other intellectual property by the Contractor, its employees, officers, agents, servants, partners or sub-contractors.

Accordingly, the Contractor shall not use or disclose such information for any purpose other than the performance of its obligations under the Contract. The Contractor shall ensure that each of its employees and/or other persons and entities having access to such information shall be made aware of,
and be bound by, the obligations of the Contractor under this paragraph. However, there shall be no obligation of confidentiality or restriction on use, where: (i) the information is publicly available, or becomes publicly available, otherwise than by any action or omission of the Contractor, or (ii) the information was already known to the Contractor (as evidenced by its written records) prior to becoming known to the Contractor in the implementation and execution of the Contract; or (iii) the information was received by the Contractor from a third party not in breach of an obligation of confidentiality.

In addition, WHO shall be entitled to terminate the Contract (or part thereof), in writing:

h. At will with the provision of thirty (30) days prior notice in writing; and

i. With immediate effect (in addition to other rights, such as the right to claim damages), if, other than as provided above, the Contractor is:

The Contractor shall also notify WHO of any other changes in conditions or the occurrence of any event which interferes or threatens to interfere with its performance of the Contract. The notice shall include steps proposed by the Contractor to be taken including any reasonable alternative means for performance that is not prevented by force majeure. Once an individual has been approved and assigned to the project, such individual will not, in principle, thereafter be taken off the project by the Contractor, or reassigned by the Contractor to other duties. Circumstances may arise, however, which necessitate that Personnel be substituted in the course of the work, e.g. in the event of promotions, termination of employment, sickness, vacation or other similar circumstances, at which time a replacement with comparable qualifications, skills and experience may be assigned to the project, subject to approval of WHO.

WHO may refuse access to or require replacement of any Contractor Personnel if such individual renders, in the sole judgment of WHO, inadequate or unacceptable performance, or if for any other reason WHO finds that such individual does not meet his/her security or responsibility requirements. Each party shall appoint a qualified project manager (“Project Manager”) who shall serve as such party’s primary liaison throughout the course of the project. The Project Manager shall be authorized by the respective party to answer all questions posed by the other party and convey all decisions made by such party during the course of the project and the other party shall be entitled to rely on such information as conveyed by the Project Manager.
