Medical device incorporation comments:
Medical devices may be purchased by the National Dept of Health & Social Affairs, or the State Health Services. At the national level purchases are made by the coordinator of the program receiving the grant or funds for the purchase, in consultation with the department to receive the device (e.g. manager of state hospital radiography department, or chief of ancillary services). Guidelines are only for competitive quotes or bidding processes.
Inventory and maintenance

Type of inventories available: National inventory for medical equipment
Comments: FSM National Dept of Health and Social Affairs, as well as state health services, keep assets registries for fixed assets over $1,000. Medical Devices will be included on these registers. Individual units (e.g. state laboratory) should have functional inventory of devices/equipment.

Medical equipment management unit: Yes
Management software: No

Lists of medical devices

Lists of approved medical devices for public procurement or reimbursement:
Lists available: No
