

Kiribati

GENERAL INFORMATION

Kiribati is a country with an approximate area of 1 thousand square kilometers (UNO, 2008). The population is 99,547 and the sex ratio (men per hundred women) is . (UNO, 2009). The proportion of the population under the age of 18 years is 36% and the proportion above age 60 is unknown (UNO, 2009). The country is in the Lower Middle income group (based on 2010 World Bank criteria). The total expenditure on health as a percentage of gross domestic product is 12.16% and the per capita government expenditure on health (PPP int. \$) is \$200.0 (WHO, 2006). Suicide rate information is not available. In Kiribati, neuropsychiatric disorders are estimated to contribute to 10.9% of the global burden of disease (WHO, 2008).

GOVERNANCE

An officially approved mental health policy doesn't exist. Mental health is not specifically mentioned in the general health policy.

A mental health plan doesn't exist.

Dedicated mental health legislation exists and it was initiated or most recently revised in 1977. Legal provisions concerning mental health are not covered in other laws (e.g., welfare, disability, general health legislation etc.).

FINANCING

Mental health expenditures by the government health department/ministry are not available.

MENTAL HEALTH CARE DELIVERY

Primary Care

Prescription regulations authorize primary health care doctors to prescribe and/or to continue prescription of psychotherapeutic medicines . The department of health does not authorize primary health care nurses to prescribe and/or to continue prescription of psychotherapeutic medicines. Official policy does not permit primary health care nurses to independently diagnose and treat mental disorders within the primary care system.

The majority of primary health care doctors and nurses have not received official in-service training on mental health within the last five years. Officially approved manuals on the management and treatment of mental disorders are not available in the majority of primary health care clinics. Official referral procedures for referring persons from primary care to secondary/tertiary care exist, as do referral procedures from tertiary/secondary care to primary care.

Mental Health Services

Availability of mental health facilities
