This list is produced under the auspices of the Technology Group of VISION 2020: The Right to Sight. The goal of VISION 2020 is the elimination of avoidable blindness. The initiative is a partnership between the World Health Organization and the International Agency for the Prevention of Blindness.

The list has been produced to assist project managers and medical personnel who are involved in providing eye care services. It aims to cover the essential equipment, instruments and supplies for primary and secondary (district) level eye care.

The list of suppliers is provided to help in obtaining information. It is not comprehensive and other suppliers are available. **Orders for items on this list should be sent direct to the suppliers.**

The prices quoted are approximate and do not include shipping costs. All prices are given in US\$.

The list is available on the following websites: [www.v2020.org](http://www.v2020.org) and [www.iceh.org.uk](http://www.iceh.org.uk). To receive an updated hard copy, please send details of your name, postal address and occupation to:
