

Small research grants for patient safety, 2008

# CALL FOR PROPOSALS

Proposals to identify, develop and/or test local interventions for improving patient safety as well as studies on the cost-effectiveness of risk-reducing strategies are invited.

## THE GRANTS

- Grants will be awarded on a competitive basis;
- Between US\$ 10 000 and US\$ 25 000 per project;
- For studies to be conducted in any health-care settings;
- For studies to be completed within 12–18 months;
- Applicants must be affiliated with an institution in the country in which the proposed study will be conducted.

## HOW TO APPLY

**The deadline for submissions is 30 September 2008.**
