## The Fourth International Seminar on Electromagnetic Fields and Biological Effects

September 12 - 16, 2005  
Kunming, China

The 4<sup>th</sup> International Seminar on Electromagnetic Fields and Biological Effects will be held on 12-16 September, 2005, in Kunming, China. This seminar will offer an opportunity to bring together researchers, engineers, public health workers and developers from academic fields and industries worldwide to share their research results and exchange ideas covering all the areas of bioelectromagnetics. To discuss and establish ACNIRP (ASIAN COMMISSION ON NON-IONIZING RADIATION PROTECTION) will also be one of the important topics of the seminar. In addition to the technical programs, social programs such as local tours around Kunming and surrounding areas are available for attendees and accompanying individuals. Pre and post seminar extended tours will also be available.

### Topics of interest include, but are not limited to:

- Biological Effects and Health Implications
- Molecular and cellular mechanism of EMFs effects
- Biophysical Mechanisms of EMFs
- Epidemiological Studies
- Occupational, Public and Clinical Exposure to EMFs
- EMFs exposure and Cancer
- Dosimetry and Health Safety Standards
- Modeling Human Body for EMF Studies
- EMFs exposure measurement & instrumentation
- Medical Applications and Instruments
