

Towards implementation of the WHA Strategic Workplan: Financing and Coordination of Health R&D

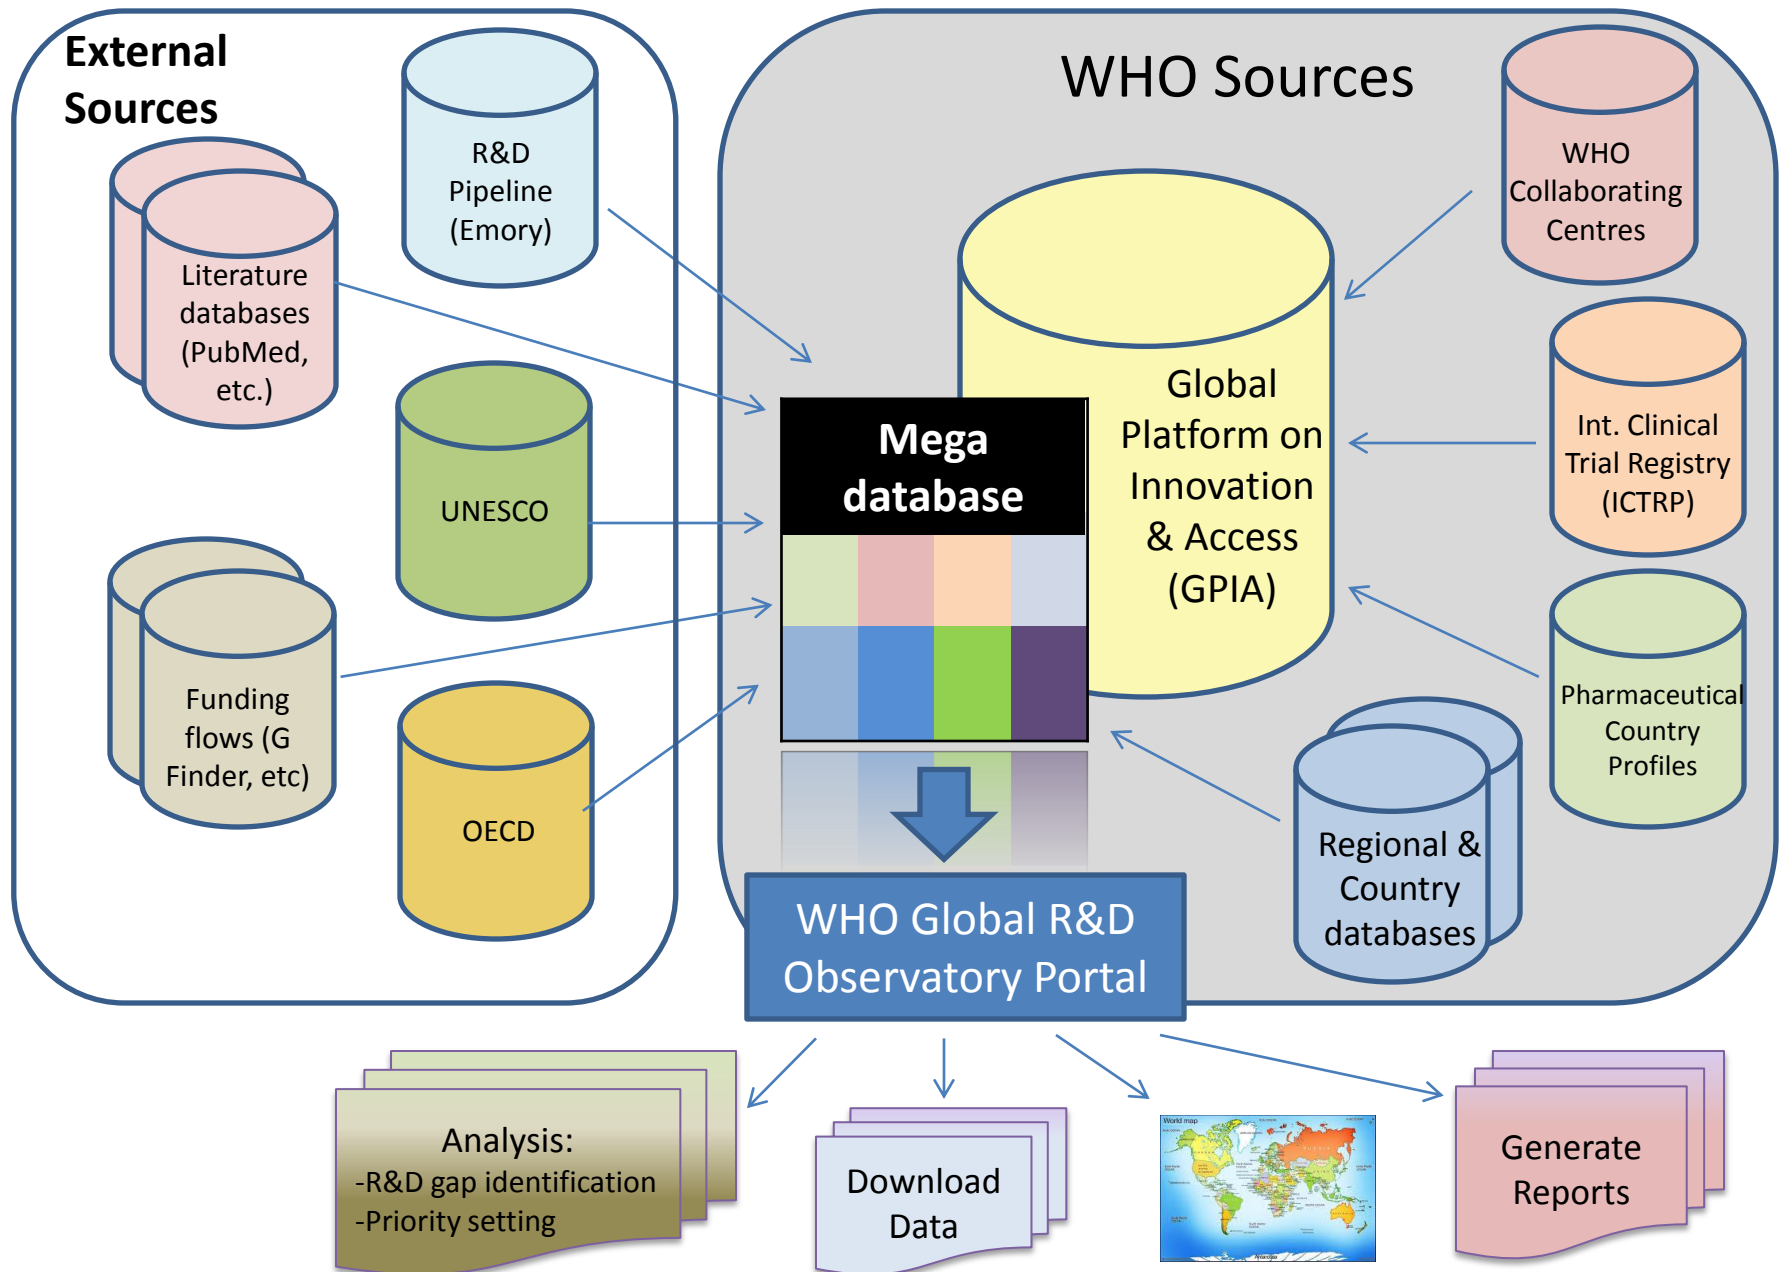

Ambassadors' meeting

September 30, 2014

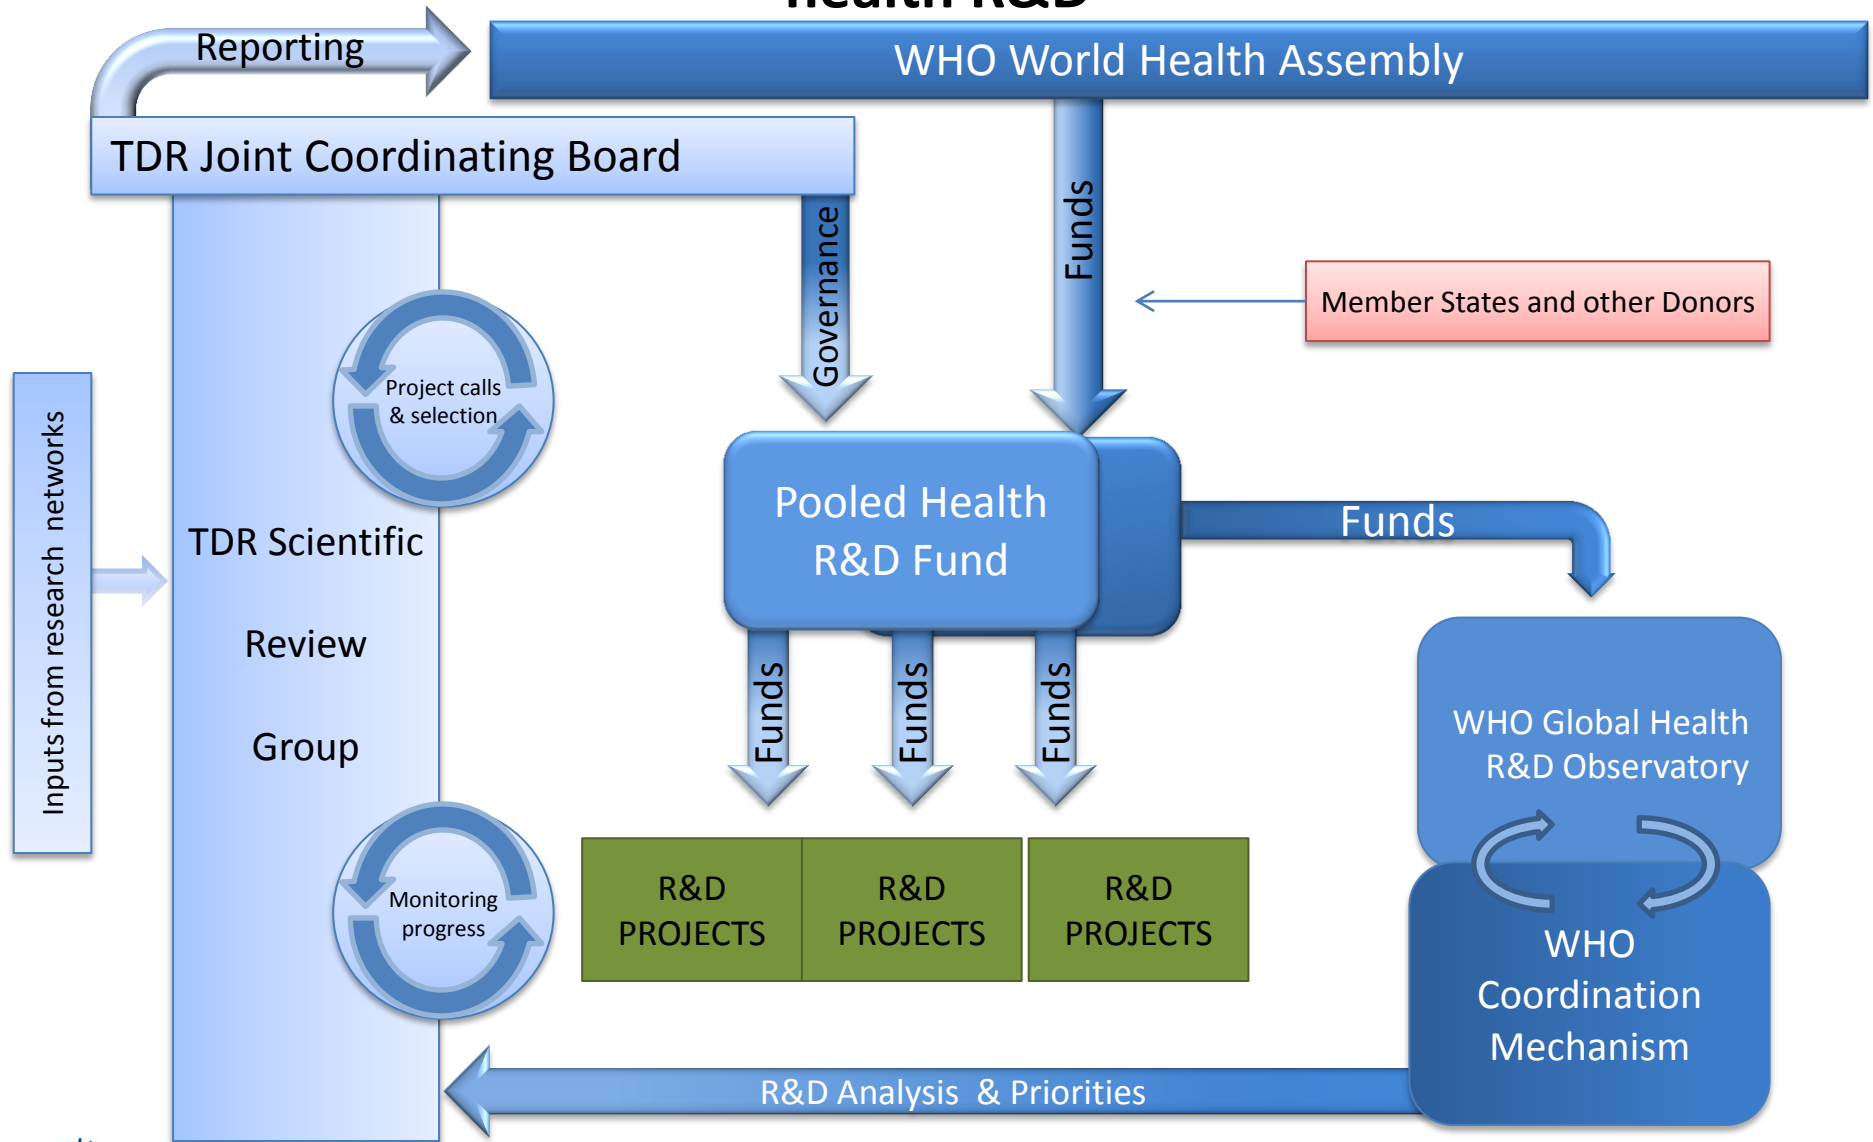

Key CEWG Recommendations

WHO Global R&D Observatory

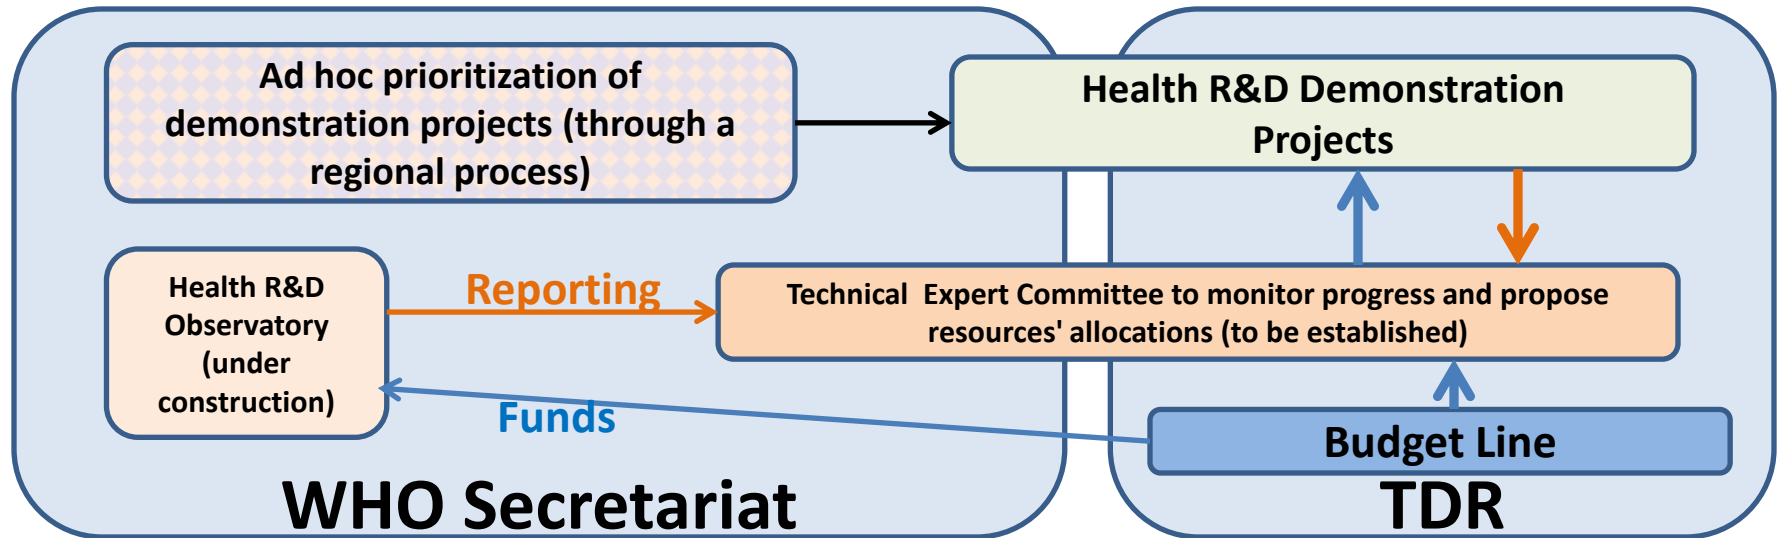

Proposed governance mechanism for a pooled fund to support health R&D

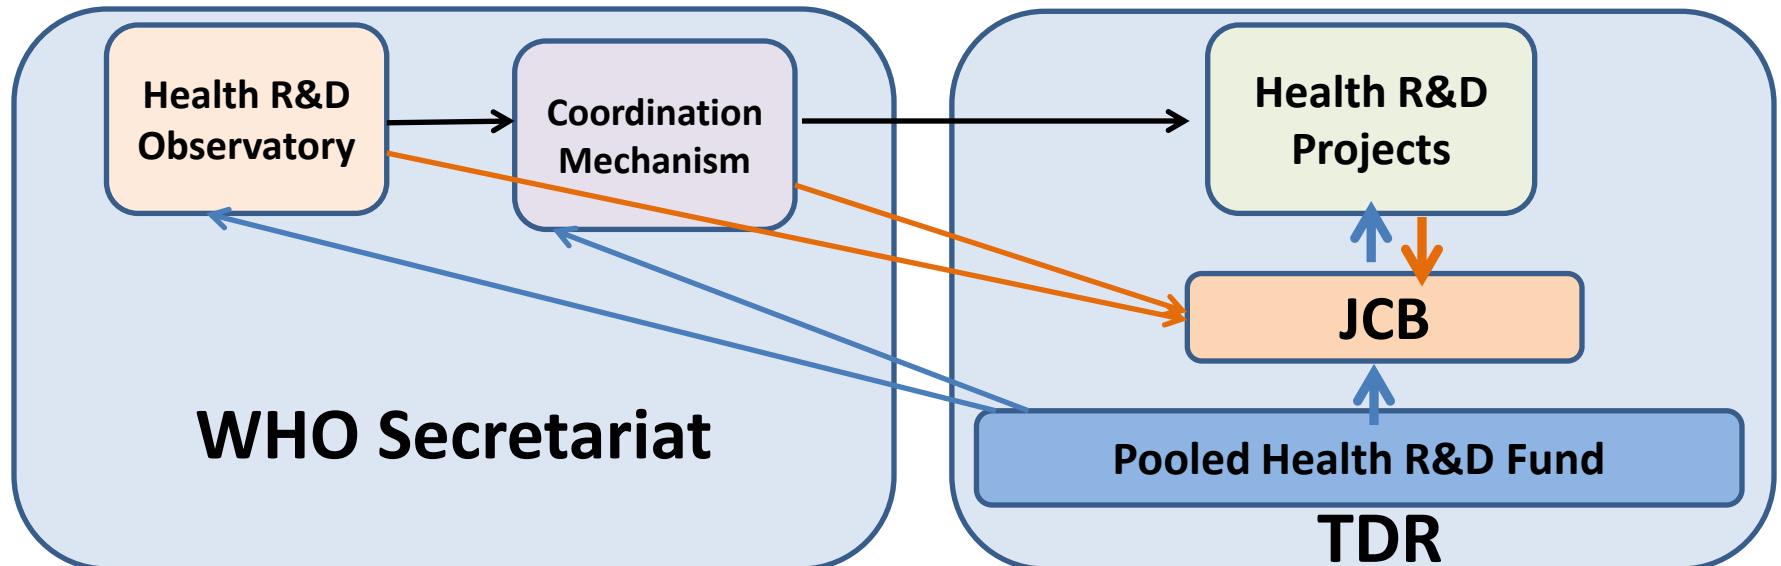

Financing Health R&D Demonstration Projects and the Future Pooled R&D Fund

Current *ad hoc* Process

Future Established Process

Health R&D Demonstration Projects

- The 6 WHO Regional Offices launched calls for proposals
- Each Regional Office sent short-listed 4 projects
- A Global Experts Committee assessed the projects and further short-listed 8 of 22

- 4 projects were selected as "demonstration projects"

- 4 additional projects are being considered

1. The Visceral Leishmaniasis (VL) Global R&D & Access Initiative [DNDi]

~~2.~~ Development Of Class D Cpg Odn (D35) As An Adjunct To Chemotherapy For Cutaneous Leishmaniasis And Post Kala- Azar Dermal Leishmaniasis (Pkdl) [USFDA] **PROJECTS MERGED**

2. Exploiting the Pathogen Box: an international open source collaboration to accelerate drug development in addressing diseases of poverty [MMV]

3. Development for Easy to Use and Affordable Biomarkers as Diagnostics for Types II and III Diseases [ANDI]

1. Multiplexed Point-of-Care test for acute febrile illness [THSTI, India]

2. Demonstration of the potential of a single dose malaria cure of artemether-lumefantrine through reformulation in a nano-based drug delivery system [CSIR, South Africa]

3. Development Of A Vaccine Against Schistosomiasis Based On The Recombinant Sm14 A Member of The Fatty Acid Binding Protein: Controlling Transmission Of A Disease of Poverty [Fiocruz, Brazil]

~~4.~~ Dengue vaccine development [Govt. of Thailand] **PROJECT WITHDRAWN**

Funding Needs for 4 Years

Category	Total Required	Available and pledged	Gap
3 current R&D Demonstration Projects (only)	50,000	3,175	46,825
Health R&D Observatory	11,000	678	10,322
	61,000	3,853	57,147

* Figures in 1000's USD
