Global Business Plan

Dr. Tore Godal
Special Advisor to the Prime Minister - Norway
Dar es Salaam, April 2007
Why a Global Business Plan

We all have a *moral imperative* - as individuals and as societies - to respect, protect and fulfill the rights of women and their newborns and children
Description

- The Global Business Plan (GBP) will underscore why we need to do more to meet the MDGs, demonstrate how we should better organize ourselves to meet those goals, and outline what more is needed to attain MDG 4 and 5.
Mission

- *The Global Business Plan will provide political impetus at the highest level to facilitate country-led action directed toward attaining MDG 4 and 5*
MDG 4&5 and the Basic Health services

- MDG 4&5 are key elements of basic health services and the vica versa

- Aim to build on the best parts of Fast Track Initiative for education and global health initiatives
How could we better organize ourself?

- *Facilitate effective country-led action for results at sub-national and community levels based on experiences from the best performing countries*
How:

Focus on achieving results at the district level and below
- Central authorities should carry out only those tasks which cannot be carried out at local level
- Inter-country or global level should carry out only those tasks that cannot be done at country level
How:

- Clarify the roles and responsibilities of major global players and reinforce core functions

- Promote UN reform
Approach: Scientific and rigorous

GAVI Board
overall oversight, policies and strategy setting, country proposal approvals

Independent Review Committee
review of country proposals, monitoring reports

Technical support:
• Partners
• Regional Working Groups
• Others

The Vaccine Fund
fund raising, advocacy, additional resources to countries

Proposals - Monitoring Reports

National Health Systems -- ICCs
preparation of proposals, program management including capacity building and training, monitoring and evaluation, advocacy and social mobilization, resource mobilization and management

New vaccines
System funding
Safety supplies
Health management at country level

Central government (+ partners)

Independent Review (South – south)

Policy and system funding
Pay for performance

Enabling support: UN (UNICEF, UNFPA, WHO) WB+

Reporting of results against key indicators

Operational level: Local Government Community

Public, private, non profit, for profit
How:

Health system finance options
1. Bilateral
2. Consolidate towards a global health fund with one health sector funding channel
3. Expand an existing channel like GAVI
4. Finance through WB or a UN institution
Financing must be accompanied by

1. Advocacy
2. Fundraising capability
3. Financial accountability
4. An oversight function
What more needs to be done?

- Build a strong *advocacy and communication* effort
- Prepare for scaling up
- Mobilize additional financial resources for advocacy, scaling up, innovation and technical support networks
Next steps

- A Network of Global Leaders that demonstrate strong commitments towards achieving MDG 4&5 is being established

- The Global Business Plan will be launched in September 2007

- Mobilization of civil society in north and south to raise demands on MDG4&5
