RWANDA

Recorded adult per capita consumption (age 15+)

Note: From 1996 the wine category includes fermented beverages, which before 1996 were included in the overall total consumption figure.

Sources: FAO (Food and Agriculture Organization of the United Nations), World Drink Trends 2003

Unrecorded alcohol consumption
The unrecorded alcohol consumption in Rwanda is estimated to be 4.3 litres pure alcohol per capita for population older than 15 for the years after 1995 (estimated by a group of key alcohol experts).1
