WHO Global Update on HIV Treatment: Results, Impact and Opportunities
Non-Commercial Satellite - SUSA03
Time: 12:30 - 14:30  Venue: Session Room 3
Co-Chairs: Gottfried Hirnschall (WHO), Switzerland and Chewu Luo (UNICEF), USA
This satellite symposium presents the main findings from the WHO Global HIV Treatment and Care Update 2013. Global and regional data detailing progress towards the Universal Access target will be presented, and implications of the new eligibility scenarios based on 2013 WHO ARV guidelines will be discussed. The impact of the treatment scale-up to date on mortality and new HIV infections will be discussed, with particular focus on the prospect of attaining the goal of zero AIDS deaths and zero new infections.

Launch of the 2013 WHO Consolidated ARV Guidelines - What's the Evidence?
Non-Commercial Satellite – SUSA04
Time: 14:45 - 16:45  Venue: Session Room 3
Co-Chairs: Andrew Ball (WHO), Switzerland and Nagalingeswaran Kumarasamy (YRGCARE Medical Centre), India
This satellite session launches the 2013 WHO Consolidated Guidelines on the Use of Antiretroviral Drugs for HIV Treating and Preventing HIV Infection. The Guidelines include recommendations along the continuum of HIV care, including recommendations on HIV testing and counselling, ART initiation and maintenance, patient monitoring, 2nd and 3rd line ART, management of co-infections and comorbidities and service delivery. New recommendations in the guidelines have been informed by 41 systematic reviews, modeling on costs and impact, surveys and country case studies.

What to Consider When Initiating ART in Patients with HIV-associated Comorbidities
Major Industry Sponsor Satellite – SUSA01
Time: 17:00 – 19:00  Venue: Session Room 3
Organizer: AbbVie
This symposium will address the challenges faced by physicians in managing comorbidities in HIV. The speakers will look at co-infections including tuberculosis and at a long-term neurological complications that may result from HIV disease and its treatment.

MONDAY, 1 JULY 2013

4th Annual Workshop on Global HIV Clinical Pharmacology Capacity Building and Implementation Research
Non-Commercial Satellite - MOSA01
Time: 07:00 – 08:30  Venue: Mini Room 1
Co-Chairs: Tim Cressey, Thailand Tsitsi Grace Monera-Penduka, Zimbabwe
07:30  Nanomedicine Development for HIV and TB A. Dube, Zimbabwe

Monday Plenary Session
Plenary Session - MOPL01
Time: 08:50 - 10:30  Venue: Session Room 1
Co-Chairs: Christopher Lee, Malaysia, Elaine J. Abrams, USA, Marina Mahatir, Malaysia
09:00  MOPL0103: Achieving Universal Access and Moving towards Elimination of New HIV Infections in Cambodia, M. Chhi Vun, Cambodia
Early ART for all TB/HIV patients saves lives!

MONDAY, 1 JULY 2013 Continued

Treatment 2013 – Current Issues and Future Directions
Symposia Session - MOSY01
Time: 11:00 - 12:30    Venue: Session Room 2
Co-chairs: Tsitsi Mutasa-Apollo, Zimbabwe and Gottfried Hirnschall, WHO

The session presents the rationale for new WHO clinical recommendations on the use of antiretroviral drugs and discusses operational and programmatic implications for countries in implementing the recommendations.

Testing: The First Step of the Cascade
Oral Poster Discussion Session: Track C Prevention Science - MOPDC01
Time: 13:00 – 14:00    Venue: Mini Room 2
Chair: Andrew Grulich, Australia

13:15 MOPDC0104: Interventions to the improvement of access to HIV and TB testing and treatment for prisoners in Zambia, C. Mumba Jr. and G. Malembeka, Zambia

Controversies in the Management of HIV-Positive Adults: A Case-Based Approach
Advanced Professional Development Workshop - MOWS01
Time: 14:30 - 16:00    Venue: Session Room 2
Facilitator: Roy Gulick, USA

This session will examine cases of HIV-positive adults and explore questions on when to start therapy, what to start, how and when to switch, and how to adjust treatment in the presence of comorbidity and coinfections including HIV/TB. Participants will have an opportunity to discuss and identify their preferred choice of case management and the various options discussed by the international panel of experts.

TUESDAY, 2 JULY 2013

Starting Right: It’s Not Just the Regimen
Oral Poster Discussion Session : Track B Clinical Sciences - TUPDB01
Time: 13:00 – 14:00    Venue: Mini Room 4
Co-Chairs: Joel Gallant, United States and Iskandar Azwa, Malaysia

13:00 TUPDB0101: High rates of unmasking tuberculosis in patients accessing HAART in rural South Africa: implications for HIV and TB treatment programs, K. Naidoo et al

Population-Based Tuberculosis Control: What Will It Take to Bring about Control Globally?
Symposia Session - TUSY03
Time: 14:25 – 16:00    Venue: Session Room 2
Co-Chairs: Jens Lundgren, Denmark, Haider Al-Darraji, Malaysia

14:25 TUSY0301: Award Presentation: IAS TB/HIV Research Prize
14:30 TUSY0307: Introduction J. Lundgren, Denmark and H. Al-Darraji, Malaysia
14:35 TUSY0302: 100 years of tuberculosis L. Bekker, South Africa
14:45 TUSY0305: Intensified case findings in the era of new diagnostics: what is the impact? J. Andrews, USA
14:55 TUSY0306: Integration of TB and HIV: marked reductions in TB incidence after introduction of ART O. Kirk, Denmark
15:05 TUSY0303: Isoniazid preventive therapy for people living with HIV: public health challenges and implementation issues P. Godfrey-Faussett, UNAIDS
15:15 TUSY0304: The perfect storm: TB and HIV in incarcerated settings F. Altice, USA
15:25 TUSY0308: Moderated discussion
15:45 TUSY0309: Closing remarks: speaker perspectives on what is needed for global TB control and the prospects for this in the next five to ten years

Optimizing Paediatric Treatment Strategies: Case Studies for the Clinician
Intermediate Professional Development Workshop - TUWS05
Time: 14:30 - 17:30    Venue: Mini Room 3
Co-Facilitators: Allison Agwu, USA and Gareth Tudor-Williams, UK
16:45 TUWS0504: Case presentation: child with suspected tuberculosis - how to use newer diagnostic tests and plan treatment in parallel with ART. M. Cotton, South Africa
Early ART for all TB/HIV patients saves lives!

WEDNESDAY, 3 JULY 2013

Meet the HIV and TB Experts
Meet the Experts - WEME01
Time: 12:45 - 14:00  Venue: Session Room 3
Chair: Linda-Gail Bekker, South Africa
Panellists: J. Lundgren, Denmark, O. Kirk, Denmark, P. Godfrey-Faussett, UNAIDS, F. Altice, USA

HIV/TB experts will discuss challenging scenarios commonly confronting clinicians and public health officials alike. The audience will have opportunities to ask questions throughout the session and to engage directly with the panel of experts.

Delivering Better Quality HIV Services
Oral Poster Discussion Session: Track D Operations and Implementation Research - WEPDD01
Time: 13:00 - 14:00  Venue: Mini Room 2
Co-Chairs: Bruce Agins, USA and Do Mai Hoa, Vietnam
13:00 WEPDD0101: Using continuous quality improvement approaches to identify facility-based innovations for increasing retention of TB/HIV co-infected patients on treatment in Uganda, K. Mutesasira et al, Uganda

Myeloid Cells Matter
Oral Poster Discussion Session : Track A Basic Sciences - WEPDA01
Time: 13:00 - 14:00  Venue: Mini Room 1
Co-Chairs: Suzanne Crowe, Australia and Mariangela Cavarelli, Italy
13:13 WEPDA0104: Anti-mycobacterial activity is enhanced by blocking the Tim3-Galectin 9 interaction in HIV patients, M.I. Sada-Ovall et al, Mexico
13:18 WEPDA0105: Monocyte gene expression differentiates cases of tuberculosis-associated immune reconstitution inflammatory syndrome from controls both before and shortly after initiation of combined antiretroviral therapy H.T.T. Tran et al, Belgium.

Integration and its Discontents
Symposia Session - WESY03
Time: 13:30 - 16:00  Venue: Session Room 4
Co-Chairs: Elvin Geng, USA, Nancy Padian, USA
Presenters & Panelists: B. Agins, USA, E. Bukusi, Kenya, E. Goosby, USA, L. Guay, USA, T. Odeny, Kenya

This session will review the successes and challenges of integrating HIV services with other health services including tuberculosis care from the perspective of efficiency and effectiveness. It will in particular address the following outstanding issues: Do vertical HIV programmes provide higher quality of care than existing general health services and will integration compromise the quality of care for HIV specific services? Given the heterogeneity of epidemiologic and programmatic settings, are there context specific differences in relative advantages and disadvantages of integrating health services? As integration of HIV services into general primary or other health care requires health workers to take on additional tasks, how can this expansion of responsibilities be sustained within overall resource constraints while maintaining quality of care? Is it necessary to first conduct additional research to examine the most effective and efficient models of integration and if so, what are the essential directions of future inquiry?

Late Breaker Track D
Oral Abstract Session : Track D Operations and Implementation Research – WELBD
Time: 16:30 - 17:30  Venue: Session Room 4
Co-Chairs: Gottfried Hirnschall, WHO and Ng Chiu Wan, Malaysia
17:00 WELBD04: Cost-effectiveness of ART and the Three I’s for HIV/TB to prevent tuberculosis in people with HIV, S Gupta, et al, India
