

**ROLLING REVISION OF
THE WHO GUIDELINES FOR DRINKING-WATER QUALITY**

Document title: Chloral hydrate in drinking-water

Please respond as far as possible to the following questions and wherever possible provide references to information you cite.

Send by e-mail to gdwqchloralhydr@who.int before 31 October 2004

Does this text respond to an issue of concern? :

Does this text compete or complement other publications in the area - if so which?

Is the level of guidance and information provided appropriate?

Are there major omissions that should be corrected?

Is there superfluous information that could be omitted?

Are there errors of fact or interpretation that should be corrected - if so what?
