^a See explanatory notes for sources and methods.^b In some cases, sum of the ratios of general government and private expenditures on health may not add to 100 because of rounding.^c Information on expenditures by parastatals and other ministries (except the National family planning coordinating board (BKKBN)) were available for only 2001 and 2002.^d These are preliminary estimates while awaiting final confirmation of Oil for Food programme expenditures. Data do not include expenditures in the three northern governorates.^e Health data for 2002 have been largely developed by WHO, as they are not yet available through the OECD Health Data 2004.

n/a Used when the information accessed indicates that a cell should have an entry but no estimates could be made.

0 Used when no evidence of the schemes to which the cell relates exist. Some estimates yielding a ratio inferior to 0.04% are shown as 0.
