

Neurology Topic Advisory Group

Tasks

The Neurology TAG reviews categories in ICD that relate to neurologic diseases. These diseases are found throughout ICD-10, principally within Chapter 6 (Diseases of the nervous system). The TAG also formulates definitions and diagnostic criteria for the relevant categories, and suggests changes to the classification structure.

Notes

**Chair

Δ Managing Editor

Progress

The TAG Neurology was formed under consultation by WHO. The TAG met for their first meeting 22-23 June 2009. A managing editor for the alpha drafting of ICD-11 is identified.

Discussions regarding changes to the linearization have started.

The Neurology TAG will have its second Face-to-Face Meeting 18-19 February 2010 in Geneva, Switzerland.
