CORRIGENDA

Infection prevention and control during health care when coronavirus disease (COVID-19) is suspected or confirmed: interim guidance, 29 June 2020

(WHO/2019-nCoV/IPC/2020.4)

Pages 2, column 1, line 4 to page 5, column 2, line 25

All subheadings in the section ‘Principles of IPC strategies associated with health care for suspected or confirmed cases of COVID-19’ have been numbered from 1 to 5 as follows

Delete:

Screening\textsuperscript{c} and triage\textsuperscript{d} for early recognition of patients with suspected COVID-19, and rapid implementation of source control measures
Applying standard precautions for all patients
Implementing additional precautions
Isolation and cohorting of patients with suspected or confirmed COVID-19
Contact and droplet precautions
Airborne precautions
Implementing administrative controls
Administrative measures related to health workers
Administrative measures to manage visitors
Implementing environmental and engineering controls

Insert:

1. Screening\textsuperscript{c} and triage\textsuperscript{d} for early recognition of patients with suspected COVID-19, and rapid implementation of source control measures
2. Applying standard precautions for all patients
3. Implementing additional precautions
3.1. Isolation and cohorting of patients with suspected or confirmed COVID-19
3.2. Contact and droplet precautions
3.3. Airborne precautions
4. Implementing administrative controls
4.1. Administrative measures related to health workers
4.2. Administrative measures to manage visitors
5. Implementing environmental and engineering controls

Page 6, column 2, line 28

Delete:

To be effective, recirculation of all or nearly all of the room air through the HEPA filter should be achieved, and the unit should be designed to achieve the equivalent of $\geq 12$ ACH\textsuperscript{37}

Insert:

To be effective, recirculation of all or nearly all of the room air through the HEPA filter should be achieved, and the unit should be designed to achieve the equivalent of $\geq 2$ ACH\textsuperscript{43}
