

CORRIGENDA

Disability considerations during the COVID-19 outbreak

(WHO/2019- nCoV/Disability/2020.1)

Page 2, lines 23–29

Delete:

- Barriers to accessing health care.

People with disability may be at greater risk of developing severe disease if they become infected because of:

- The pre-existing health condition underlying the disability; and
- Barriers to accessing health care.

People with disability may also be disproportionately impacted by the outbreak because of serious disruptions to the services they rely on.

Insert:

- Barriers to accessing health care.

People with disability may also be disproportionately impacted by the outbreak because of serious disruptions to the services they rely on.

The barriers experienced by people with disability can be reduced if key stakeholders take appropriate action.
