WORLD TB DAY 2019

ADVOCACY & COMMUNICATION TOOLKIT
ABOUT WORLD TB DAY

World TB Day is observed on March 24 each year to raise public awareness and understanding about the world’s deadliest infectious killer - tuberculosis (TB) and its devastating health, social and economic impact on people around the world.

March 24 marks the day in 1882 when Dr Robert Koch announced that he had discovered the bacterium that causes TB, which opened the way towards diagnosing and curing this disease.

However, TB still claims 4,500 people lives each day and close to 30,000 people fall ill with this preventable and curable disease. The emergence of drug-resistant TB poses a major health threat that could put at risk the gains made to end the global TB epidemic. World TB Day is an opportunity to focus on the people affected by this disease and to call for accelerated action to end TB suffering and deaths.
World TB Day 2019 follows a year which generated concerted high-level commitment for the fight against TB. Heads of State came together at the first-ever UN high-level meeting on TB (UNHLM on TB) in New York last September, and agreed to bold targets and urgent actions to end TB.

This is the momentum behind this year’s World TB Day theme: ‘It’s time’!

It’s time! – means there is not a moment to lose to achieve the promises made during the UNHLM on TB, and endorsed by the UN General Assembly, which could save millions of lives.

It’s time! – stresses on the need to close gaps in care as part of WHO’s overall drive towards universal health coverage, and urges countries to work together with WHO, Stop TB and the Global Fund to realise their joint initiative Find. Treat. All. #EndTB.

All partners, communities and those affected by TB must act now and drive their initiatives forward.

IT’S TIME TO ENSURE NO ONE IS LEFT BEHIND.
IT’S TIME FOR THE WORLD TO TAKE ACTION TO END TB.
IT’S TIME! - A CAMPAIGN FOR ACTION

Starting on 1 March, the month leading to World TB Day, WHO aims to raise awareness on the importance of ending TB, and we plan to call on all leaders and partners in the fight to translate their commitments and promises into urgent actions to End TB, including:

✓ **DRIVING POLICIES THAT WORK FOR THE POOR AND MARGINALIZED**
  with zero discrimination and catastrophic costs, ensuring no one is left behind.

✓ **ACCELERATING THE END TB RESPONSE**
  to reach the targets set in SDGs, WHO End TB Strategy, the Moscow Declaration to End TB and the political declaration of the UN High Level Meeting on TB.

✓ **REQUESTING ACCELERATED, INCREASED AND SUSTAINABLE FUNDING**
  to support efforts to end TB; for every USD1 invested to end TB, USD 43 is returned as the benefits of a healthy functioning society (Economist/ Copenhagen Consensus).

✓ **CALLING FOR INCREASED INVESTMENTS IN TB RESEARCH**
  for better science, better tools and better delivery.

HOW THE TOOLKIT CAN HELP

This toolkit contains materials and resources which can be used in the lead-up to and during World TB Day 2019 to support your activities and outreach.

Whether you are a person affected by TB or a caregiver, whether you work in a government, academia, a nongovernmental organization and civil society organization or a media outlet, whether you are a doctor, teacher, journalist, blogger or simply a well-wisher, this toolkit is for you!
2019 WORLD TB DAY CAMPAIGN MESSAGES

It’s time to translate global TB commitments into urgent action and accelerate the TB response

✓ OVER ONE THIRD OF PEOPLE WITH TB DO NOT ACCESS QUALITY CARE
   
   It’s time for universal access to reach and treat all people with TB with QUALITY care.

✓ OVER 50% OF CHILDREN WITH TB MISS OUT ON ACCESS TO LIFE-SAVING SERVICES
   
   It’s time to ensure universal access to care.

✓ ONLY ONE IN FOUR PEOPLE WITH DRUG-RESISTANT TB ACCESS TREATMENT
   
   It’s time to end the global health threat of multidrug-resistant TB.

✓ PREVENTIVE TREATMENT CAN STOP TB INFECTION FROM ACTIVATING INTO INFECTIOUS DISEASE
   
   It’s time to protect yourself and your loved ones - get tested and access preventive treatment.

✓ NEARLY 50% OF PEOPLE WHO FALL ILL WITH HIV-ASSOCIATED TB DO NOT REACH CARE
   
   It’s time to end preventable deaths by ensuring early access to TB treatment, life-saving ART and TB preventive treatment.

✓ STIGMATIZING PEOPLE WITH TB INHIBITS CARE AND IS SOCIALLY DEVASTATING
   
   It’s time to stand against stigma and discrimination.

✓ MORE EFFECTIVE DIAGNOSTICS, MEDICINES, VACCINES, AND CARE DELIVERY INNOVATION IS URGENTLY NEEDED TO BREAK THE TRAJECTORY OF THE TB EPIDEMIC
   
   It’s time to scale up investments in TB research & innovation.
You can play your part by raising awareness about the disease and holding your country’s decision makers and leaders accountable to their promises. In this toolkit, you will find some key messages and social media content, but don’t just stop there! Use your voice and creativity to:

- **RAISE AWARENESS ABOUT TB**
  Inform your colleagues, employees, partners, families, friends, colleagues, and community about TB. The more people know about TB, the more focus – and resources – can be shifted toward ending it.
  *It’s time to understand more about TB.*

- **ADVOCATE ALONGSIDE YOUR COMMUNITY LEADER AND YOUR POLITICAL REPRESENTATIVES**
  Secure their commitment to end TB; stress that we cannot waste another minute.
  *It’s time to be an #End TB champion.*

- **STIMULATE LEADERSHIP AND ACTION BY ORGANIZING AN ACTIVITY**
  Discussion forums, sporting events, workshops for activists and media, art competitions, coffee mornings, concerts, sponsored activities can put the spotlight on TB and its devastating impact.
  *It’s time to work together to #EndTB*

- **USE AND ADAPT OUR CAMPAIGN MATERIALS**
  Post them on your communications platforms (website, social media, etc.) to promote World TB Day 2019.
  *It’s time to play your part as an #EndTB influencer*

- **MAKE SOME NOISE TO END TB ON SOCIAL MEDIA TOOLS**
  Facebook, Twitter, Instagram, and Snapchat offer many opportunities to amplify TB issues.
  *It’s time! It’s time for action. It’s time to End TB.*

END THE GLOBAL HEALTH THREAT OF MULTIDRUG-RESISTANT TB

Only one in four people with drug-resistant TB access treatment. It's time for action.

Over 50% of children with TB miss out on access to life-saving services. It's time for action.

Over one-third of people with TB do not access quality care. Ensure universal access to quality TB testing and treatment for all people with TB. It's time for action.

Preventive treatment can stop TB infection from activating into disease. Prevent infection and protect yourself and your loved ones. Get tested and access preventive treatment. It's time for action.

Nearly 50% of people who fall ill with HIV-associated TB do not reach care. End preventable deaths by ensuring early access to TB treatment, life-saving antiretroviral therapy, and TB preventive treatment. It’s time for action.

Stigmatizing people with TB inhibits care and is socially devastating. Stand against stigma and discrimination. It’s time for action.

More effective diagnostics, medicines, vaccines and innovative care delivery approaches are urgently needed to break the trajectory of the TB epidemic. Scale up investments in TB research and innovation. It’s time for action.

POSTERS
INFOGRAPHICS

**IT’S TIME FOR ACTION**

**IT’S TIME TO #END TB**

**IN 2017**

1.6 MILLION PEOPLE DIED FROM TB INCLUDING 300,000 PEOPLE WITH HIV

TB is the leading killer of people with HIV and a major cause of deaths related to antimicrobial resistance.

**TB IS THE TOP INFECTIOUS KILLER IN THE WORLD**

**IN 2017**

10 MILLION PEOPLE FELL ILL WITH TB

6.4 MILLION PEOPLE WERE OFFICIALLY RECORDED BY NATIONAL REPORTING SYSTEMS

3.6 MILLION PEOPLE WERE UNDIAGNOSED, OR DETECTED BUT NOT REPORTED

Better reporting, diagnosis and access to care will close this gap.

**IT’S TIME FOR ACTION**

**IT’S TIME TO #END TB**

Only one in four people had access to MDR-TB treatment.

Of those treated, only 55% were treated successfully.

Tackling the MDR-TB crisis.

**ONLY ONE IN FOUR PEOPLE HAD ACCESS TO MDR-TB TREATMENT**

**FUNDING GAPS IMPEDE PROGRESS TO END TB**

US$ 10.4 BILLION REQUIRED FOR TB IMPLEMENTATION

Funding gap: 3.5 BILLION

Funding gap: 5.3 BILLION

US$ 10.4 BILLION REQUIRED FOR TB RESEARCH

Treatment of TB infection (latent TB)

1/4 of the global population is infected with latent tuberculosis.

10-15% will go on to develop active TB disease.

Priority risk groups:

- Setting context
- Healthcare workers
- People living with HIV
- People receiving organ or hematological transplantation
- People receiving anti-TNF treatment
- People with silicosis
- People receiving dialysis

**PRIORITY RISK GROUPS**

**CONTACTS**

- 5 years old and older
- Homeless
- People who use drugs
- People in prison

**SETTING CONTEXT**

- Child contacts under 5 years
- Receiving organ or hematological transplantation

**FUNDING GAPS IMPede PROGRESS TO END TB**

WHO recommends preventive treatment for people living with HIV and all contacts living in households with TB (including children under 5 years).

**IT’S TIME FOR ACTION**

**IT’S TIME TO #END TB**

Only 36% of people newly engaged in HIV care were started on TB preventive treatment.

Only 33% of children under 5 years, estimated to be eligible for TB preventive treatment, were started on it.

**EXPANDING ACCESS TO TB PREVENTIVE TREATMENT**
