

Situation Summary

Highlights of Current Situation Report

- A total of 1,792 COVID-19 cases including 143 deaths were reported in the last 7 days. Of the 1,792 cases, 8.3% (148/1792) were imported and 91.7% (1,644/1,792) were locally acquired;
- In total, 3,731 Delta cases (1,904 females) have been detected from 31 March to 9 September 2021, affecting 24 municipality and provinces, involving migrants returning from Thailand and Viet Nam, airline passengers, health care workers and community cases;
- As of 18 October 2021, 10 am ICT, 116,860 confirmed cases of COVID-19, including 2,670 deaths have been reported from Cambodia, of which 111,149 have recovered. A total of 19,365 (16.6%) cases were acquired overseas;
- Since January 2020, a total of 1,658,277 individuals have been tested using real-time polymerase chain reaction (RT-PCR), with a positivity rate of 5.3%. As of 18 Oct 2021, a total of 2,191,199 tests have been performed using RT-PCR.
- As of 30 Sep 2021, only RT-PCR test results are being reported in the official case numbers.

Upcoming Events and Priorities

Surveillance

- MOH with WHO support is conducting weekly transmission stage, situation assessments and analyses to understand the effectiveness of interventions using multisource surveillance at subnational level.
- WHO is supporting MOH to develop subnational guidance on monitoring implementation of and compliance to NPIs as part of calibrating subnational NPIs.
- WHO is providing support on monitoring ICU bed capacity (bed occupancy) at subnational level and strengthening surveillance systems to monitor severity of cases.
- WHO is technically supporting MOH to update the COVID-19 surveillance strategy in preparation for an endemic COVID-19 scenario.
- MOH with technical guidance and support from partners is conducting death investigations in Phnom Penh to strengthen understanding of causes of death, access to care, and investigate underlying transmission in the community.
- MOH and WHO are now working in five border provinces to strengthen Incident Management System (IMS), RRT capacity for investigations and use multisource surveillance to assess the epidemiological situation and implement targeted response, and strengthen safe quarantine.

Laboratory

- WHO, Institute Pasteur in Cambodia (IPC) and partners are providing technical and coordination support to NIPH, CCDC and COVID-19 laboratories to ensure expanded and sustained testing capacity.
- Laboratory expansion plan continues with 17 active laboratories and a further three planned in the coming months (one in October and two in November).
- NIPH is strengthening capacity to perform whole genome sequencing, in addition to IPC.
- NIPH has been working with IPC, WHO and partners to develop and support the implementation of the SARS-CoV-2 External Quality Assurance (EQA) program to ensure quality testing at all COVID-19 laboratories.

- WHO is supporting NIPH to strengthen Whole Genome Sequencing (WGS) to detect mutations and monitor Variants of Concern (VoC)/Variants of interest (VoI) by procuring laboratory commodities, with support from WPRO.
- WHO is providing technical advice and guidance to MoH on sampling strategies for SARS-CoV-2 genomic surveillance and has developed a protocol and is working with IPC to finalise.
- WHO is providing technical advice and support to MoH to review and update the SARS-CoV-2 testing strategy.

Healthcare delivery and pathways

- Department of Hospital Services (DHS), Ministry of Health, plans for rolling out onsite coaching on oxygen therapy to cover all provinces by end of this year. The roll out training will continue in two more provinces (Kep and Kampot) next week.
- Mentorship to strengthen sub-national level on clinical management, patient pathway, ICU bed capacity & efficiency and infection prevention control with special focus on border provinces is also ongoing.
- Continue monitoring severe cases and ICU bed capacity (bed occupancy) through network with provincial level.
- Regular virtual meeting between national level and all provincial hospitals is continues to get update on the situation from provinces, sharing experience among provincial, understand challenges at implementation level and get support and advice from national level.

Risk communication and community engagement

- WHO is closely working with MoH in strengthening community engagement, engaging local influencers, VHSGs, health care workers and local authorities in priority provinces.
- WHO is supporting monitoring of vaccination sessions across the country and continues to provide surge support for monitoring and reaching the unreached applying evidence based RCCE interventions.
- WHO in collaboration with MoH is developing social media tiles to counter misinformation and rumours.
- WHO has developed the guidance for vaccination of women with breastfeeding infants, women who are pregnant or planning to get pregnant and women who are menstruating and about vaccines and fertility (Please see [LINK](#) for informative video and [LINK](#) for social media tiles and infographics). The material is being translated in Khmer language.
- WHO with support of Regional Office is also planning to launch FB campaign on vaccination of women with breastfeeding infants, women who are pregnant or planning to get pregnant and women who are menstruating.
- The COVID-19 pandemic has had a major impact on people's mental health. During this year's World Mental Health Day campaign (Mental health care for all: let's make it a reality), WHO HQ has shared new materials, in easy-to-read formats, of how to take care of your own mental health and provide support to others too ([LINK](#)).
- The Regional Office launched the first WHO Western Pacific Innovation Challenge: Innovation for the Future of Public Health. Calling for solutions to better the health and well-being of people in the Region including for COVID-19 innovation.
[Learn more about the Innovation Challenge](#) and [submit an application](#) before 31 October 2021.

Transmission Assessment

The current multi-source surveillance assessment indicates Phnom Penh, Preah Sihanouk, Kampong Speu, Kandal, Takeo, Kampot, Banteay Meanchey, Battambang, Kampong Cham, Kampong Chhnang, Prey Veng, Preah Vihear, Svay Rieng, Tbong Khmum, Stung Treng, Kampong Thom, Siem Reap and Oddar Meanchey are in stage 2 transmission (localized community transmission), the other 7 provinces (Koh Kong, Kep, Kratie, Pailin, Pursat, Mondulhiri, and Ratanakiri) are in Stage 1 transmission.

Strategic Approach

National and Provincial Public Health Response

Incident Management Systems

- National COVID-19 Committee (CCC), chaired by Samdech Prime Minister
- Standing committee of CCC, Chaired by Deputy Prime Minister and Minister of Economy and Finance
 - ❖ Municipal-Provincial COVID-19 committees, chaired by Municipal-Provincial Governors
 - ❖ Ad Hoc committee on national COVID-19 vaccination
 - ❖ Ad-Hoc committee in charge of COVID-19 vaccine procurement
- Inter-Ministerial Committee, chaired by the Minister of Health, with Secretaries of State
- Sub-committee for Evaluation, Planning, and Strategy, chaired by Secretary of State of the Ministry of Health
- Sub-Committee for Management at Points of Entry and Quarantine, chaired by Director-General of the General Department of Intelligence, Ministry of National Defense
- Sub-Committee for Rapid Response and Investigation into Persons with COVID-19, chaired by Deputy National Police Commissioner, Ministry of Interior
- Technical and Treatment Sub-Committee, chaired by Secretary of State, Ministry of Health
- Sub-Committee for Laboratory Services, chaired by Secretary of State, Ministry of Health
- Sub-Committee for Education, Training and Public Affairs, chaired by Secretary of State, Ministry of Health
- Sub-Committee for Supplies and Finance chaired by Secretary of State, Ministry of Health
- Sub-Committee on Technology and Data chaired by Secretary of State, Ministry of Posts and Telecommunications
- Sub-Committee for Construction and Repair chaired by Deputy Commissioner of National Police, Ministry of Interior
- Sub-Committee for Management and Handling of Bodies of Persons with Confirmed or Suspected COVID-19 chaired by Secretary of State, Ministry of Interior
- Committee on Economic and Financial Policy (CEFP)/ Ministry of Economy and Finance (MEF) of four Working Groups to address the socio-economic impacts of COVID-19.

System and Policy Development

- On 5 March 2021, the draft law “Measures to Prevent the Spread of COVID-19 and other Dangerous Infectious Diseases” was approved by the National Assembly.
- State of Emergency legislation was promulgated into law on 29 April 2020; has not been enacted.
- Go.Data Platform used as a surveillance database including laboratory and contact tracing information.
- NIPH and CDC databases have been adjusted to allow for a multisource dataset on testing and surveillance.

Key Priorities

- WHO have supported MOH to conduct joint field missions to the provinces throughout April-September to support local preparedness and response for COVID-19.

- A survey of clinical management and infection prevention and control training is being implemented by MOH/DHS to support the development of a national curriculum for COVID-19.
- Number of health system readiness assessments on hospital readiness, ICU capacity, oxygen, staffing, etc. are currently being conducted by MOH/DHS.
- National programs are developing specific COVID-19 preparedness and response plans.
- The laboratory expansion strategy and molecular diagnostics training plan are being implemented to ensure sustained testing for COVID-19 at the National and Regional level.
- Strengthening local preparedness to prepare for potential localized outbreak and other public health emergencies in the future and minimizing disruptions to the delivery of essential health services.

Strategic Approach to COVID-19 Prevention, Detection, and Control

- *Testing strategy and contact tracing system in place*
A broad testing strategy is being implemented nationwide, including testing all suspect cases meeting case definition, active surveillance for pneumonia cases in hospitals, testing at POEs at day 1 and day 13 of 14-day quarantine, and testing ILI and SARI samples from sentinel sites for COVID-19. Targeted testing of high-risk populations is also being implemented as necessary.
- *Risk communication and community engagement*
A strategy for surveillance using community engagement has been developed and will be piloted for case detection at the health center level and in the community. The Ministry of Interior is reinforcing the monitoring of quarantine through follow-up and fines for individuals who do not follow guidelines.
- *NPIs (recorded in table at end of report)*

Best Practices / Lessons Learned

Factors Contributing to Strong Response

- **Strong leadership and coordination**
 - ❖ Whole-of-government, whole-of-society response led by the Prime Minister, with public health actions led by Minister of Health.
 - ❖ National Master Plan for COVID-19 developed with a budget of \$62 million for the first year.
 - ❖ On 01 July 2021, Samdech Prime Minister introduced six COVID-19 response strategies that are aimed at preventing the importation of new variants, reducing cases, providing effective and standard treatment, strengthening contact tracing and management, handling of bodies and vaccination.
- **Past investments have built a functional public health system**

- ❖ Multisource surveillance for COVID-19, including event-based surveillance (with 115 hotline) and expanded ILI/SARI surveillance.
- ❖ Almost 3,000 RRT members across the country conduct case investigation and contact tracing.
- **Risk communication and community engagement**
 - ❖ Timely messages disseminated through TV, radio, and social media, regular press releases, press conferences, and media briefings.
 - ❖ Risk-based approach for the development of targeted communication materials for at-risk groups, including migrants and garment factory workers, markets, prisons, restaurants/pubs, etc.
 - ❖ Community engagement strategy being rolled out to encompass all aspects of surveillance and response for COVID-19, particularly in the event of community transmission.
 - ❖ Close coordination and collaboration with other UN agencies, INGOs, and other stakeholders on RCCE implementation, monitoring, adapting, and reinforcing.
- **International solidarity and cooperation**
 - ❖ Open and transparent health system response in the country.
 - ❖ Close technical and operational cooperation between UN agencies and other development partners.
 - ❖ High-level participation in international meetings, including regular coordination between National International Health Regulations (IHR) Focal Point.

COVID-19 Vaccinations

As of 18 October 2021:

COVID-19 vaccine updated

The Royal Government of Cambodia received **37,606,640 doses of COVID-19 vaccines**

- ❖ 28,500,000 (76%) doses procured from China
- ❖ 6,715,040 (18%) doses donated: China (6,300,000) and UK (415,040)
- ❖ 2,391,600 (6%) doses through COVAX (including dose sharing from Japan and USA)
- ❖ Next arrival: 124,800
- ❖ 124,800 doses of Sinovac through COVAX, expected to arrive on 5 November 2021

COVID-19 vaccination Roll Out

- **COVID-19 vaccination coverage of HCWs and elderly ≥ 60 years old**
 - ❖ 42,562 (97.6%) health care workers were vaccinated with first dose and
 - ❖ 42,556 (97.6%) health care workers were vaccinated with second dose of COVID-19 vaccine
 - ❖ 1,372,272 (99.5%) elderly aged ≥ 60 years old were vaccinated with first dose and
 - ❖ 1,289,628 (93.5%) elderly aged ≥ 60 years old were with second dose of COVID-19 vaccine
- **COVID-19 Vaccination roll out for ≥ 18 years:**
 - ❖ 9,953,622 people were vaccinated with first dose of COVID-19 vaccine (99.5 % of target population ≥ 18 years).

- ❖ 9,600,028 people were vaccinated with second dose of COVID-19 vaccine (96.0 % of target population \geq 18 years).
- ❖ The proportion of female receiving the first and second dose is 50% among total doses vaccinated.

Out of 25 provinces,

- ❖ Eighteen (18) provinces reported vaccination coverage with first dose \geq 90%, and seven (7) Provinces reported 50 % to 89%
- ❖ Fifteen (15) provinces reported vaccination coverage with second dose \geq 90% and ten (10) provinces reported 50 % to 89%
- **COVID-19 Vaccination roll out from 12 years to under 18 years :**
 - ❖ 1,776,815 children were vaccinated with first dose of COVID-19 vaccine (90.4% of target population from 12 to under 18 years old)
 - ❖ 1,676,664 children were vaccinated with second dose of COVID-19 vaccine (85.3 % of target population from 12 to under 18 years)
 - ❖ The proportion of female receiving the first is 49 % and second dose is 50% among total doses vaccinated.

Out of 25 provinces,

- ❖ Sixteen (16) provinces reported vaccination coverage of first dose \geq 90%, and nine (9) Provinces reported 50 % to 89%
- ❖ Nine (9) provinces reported vaccination coverage of second dose \geq 90% and sixteen (16) provinces reported 50 % to 89%
- **COVID-19 Vaccination roll out from 6 years to under 12 years :**
 - ❖ 1,879,084 children were vaccinated with first dose of COVID-19 vaccine (99.0 % of target population from 6 to under 12 years old)
 - ❖ 1,437,983 children were vaccinated with second dose of COVID-19 vaccine (75.8 % of target population from 6 to under 12 years old)
 - ❖ The proportion of female receiving the first dose is 49 % and second dose is 50% among total doses vaccinated.

Out of 25 provinces,

- ❖ All twenty-five provinces reported vaccination coverage of first dose \geq 90%,
- ❖ Ten (10) provinces reported vaccination coverage of second dose \geq 90%, fourteen (14) provinces reported 50 % to 89% and only one(1) province reported < 50%
- **Third dose of COVID-19 Vaccination coverage:**
 - ❖ 1,480,747 (14.8%) people aged \geq 18 years old included health care worker, frontline of Government officials, people aged 60 years old and older, and immunocompromised persons, were vaccinated with booster dose of COVID-19 vaccine ,
 - ❖ The proportion of female receiving the booster dose is 41 % among total doses vaccinated

Vaccine Safety:

206 AEFI cases were reported from 25 provinces and AEFI reporting rate per 100,000 doses =0.77

- ❖ AEFI reporting rate per 100,000 doses for Sinovac vaccine = (95 cases) 0.56
- ❖ AEFI reporting rate per 100,000 doses for Sinopharm vaccine=(78 cases)=1.10
- ❖ AEFI reporting rate per 100,000 doses for AZ COVISHIELD vaccine= (29 cases)=8.97
- ❖ AEFI reporting rate per 100,000 doses for J&J vaccine= (3 cases)=0.38
- Reaching to unreached strategy: Conducted a meeting with director and NIP team of Angkor Chum, Sonikhum and Siem Reap operational districts of Siem Reap province to discuss Reaching to unreached strategy and local authority was started listing of

- unvaccinated target population and health started mobilizing vaccination team to communities by close collaboration with village chief and local authorities
- Conducted field monitoring and supervision COVID-19 vaccination roll out at vaccination sites
 - ❖ 3 Vaccination sites of Angkor Chum operational district
 - ❖ 5 Vaccination sites of Sonikhum operational district and
 - ❖ 4 Vaccination sites of Siem Reap operational district
 - The Rapid Convenience Assessment (RCA) was conducted in
 - ❖ Three villages of Real health centre of Angkor Chum operational district
 - ❖ Two villages of Svay Leu health centre of Sonikhum operational district and
 - Support Ad Hoc committee on developing guide for requesting new vaccination card and vaccine certificate for international travel and certificate format
 - Continue analysis vaccination and AEFI data, prepare report and share to stakeholders and within WHO
 - Provided technical strategic inputs on EPI on the COVID 19 policy considerations for safe and sustainable opening
 - Developed concept note on COVID 19 certificate outlining the objectives and recommendations to NIP and Ad Hoc Committee on the required data to be added to existing vaccination card.

Non-Pharmaceutical Interventions (NPI)

On 16 October, Minister of Health and Chair of the Inter-Ministerial Committee to Combat COVID-19 issued a new directive, imposing new travel conditions, implementation of health rules and quarantine in Cambodia for travelers entering Cambodia in line with the new normal context:

- Special quarantine measures will be decided by the Royal Government for high-level international delegation and senior government officials returning from overseas missions
- Passengers who are investors, experts (Khmer and foreigner), diplomats, international organization officers, civil servants returning from official missions abroad, incl. their families are required to perform 3-day quarantine and PCR test at point of entry
- General travelers who are vaccinated need to be quarantined for 7 days; and
- Travelers who are unvaccinated or not fully vaccinated need to be quarantined for 14 days, do rapid test on arrival and PCR test on Day 6 if they receive negative test result on day 1

On 17 October, Phnom Penh City Hall reversed earlier provision requiring children aged 6 to under 18 years old to present vaccination card when entering a school.

On 5 October, Phnom Penh City Hall required adults and children aged 6 years old and over to present their vaccination card or certificate when entering a school, a market or business location.

Phnom Penh Capital and six other provinces (Kampong Cham, Kampong Speu, Kampong Thom, Oddar Meanchey, Preah Vihear, and Siem Reap) continue to suspend high-risk work and business activities, alcohol sales and have gathering restrictions and curfews.

Table 2. NPI implementation and lifting dates

NPI	Monitoring status					
	Date first implemented	Date last modified	Implementation		Partial lift	Lifted
			Geographical (national or sub-national)	Recommended or Required	Lifted for some area	Lifted for all areas
Wearing Face Masks, Hand Hygiene, Respiratory Etiquette	None	03 May 2021	National	Required		No
School Closure	16 March 2020	15 September 2021	National	Recommended	Yes	No
Workplace Closure	None	None				
Mass Gatherings	3 April 2020	19 June 2021	National	Required	No	No
Stay at Home	Government recommends staying home if possible	None				
Restrictions on Internal Movement (within country)	9 April 2020	29 July 2021	National	Recommended	Yes	No
Restrictions on International Travel	27 March 2020	11 November 2020	National	Required	Yes	No
Others; specify in narrative	None	None	-	-	-	-
