### Immunization

- 84240 out of 2.35 million doses of Pfizer donation from the Government of Japan was received.
- As of 21 June 2021, 1<sup>st</sup> dose coverage was 89.2%, and 2<sup>nd</sup> dose coverage was 79.2%. The 1<sup>st</sup> dose coverage among the population is 59%, 2<sup>nd</sup> dose coverage is 52%. Pregnant women- 1031, lactating mothers- 860, children aged 16-17 – 10294 are vaccinated with 1<sup>st</sup> dose respectively.

### Health care services

- COVID-19 Hotline expanded with the 2<sup>nd</sup> line for referral services for severe cases
- 40 buses were mobilized as mobile COVID-19 emergency outpatient centers linked to hotline in Ulaanbaatar
- 1947 additional bed mobilized in UB including intermediate facilities and private hospitals.

### Planning and information

- Setting up of multisectoral surveillance teams for contact tracing, cluster investigation and information management is in progress in the 9 districts. NCCD, Intelligence, Police, Red Cross volunteers and newly graduates of Public Health School are in the teams.
- National surveillance and response guidelines are revised including contact tracing, reporting, screening, triage procedures and indicators for surveillance, contact tracing and health care capacity respectively.
- Multisectoral WG on IAR is appointed to support responses at subnational level. IAR assessment tools are under development.
