Attacks on Health Care Dashboard

Number of attacks

89 attacks
14 deaths
61 injuries
16 countries and territories

Countries and territories with reported attacks (2018)

4-year comparative data

The data on this dashboard is consolidated by WHO from information that is publicly available and/or provided by relevant WHO country offices. WHO does not verify individual incidents, and cannot guarantee that the data in the dashboard are accurate and/or exhaustive. The dashboard is being published without warranty of any kind, either expressed or implied. The responsibility for the interpretation and use of the dashboard and the data contained therein lies with the reader. In no event shall the World Health Organization be liable for damages arising from the use of this work. The boundaries and names shown and the designations used on maps do not imply the expression of any opinion whatsoever on the part of the World Health Organization concerning the legal status of any country, territory, city or area or of its authorities, or concerning the delimitation of its frontiers or boundaries. Dotted and dashed lines on maps represent approximate border lines for which there may not yet be full agreement.
