Terms of reference for the working group on assistance and cooperation

Background

Article 12 of the Protocol to Eliminate Illicit Trade in Tobacco Products (Protocol) stipulates obligations to Parties regarding free zones and international transit.

Article 21 of the Protocol stipulates that Parties shall, subject to domestic law or any applicable international treaties, where appropriate, exchange, on their own initiative or on the request of a Party that provides due justification that such information is necessary for the purpose of detection or investigation of illicit trade in tobacco, tobacco products or manufacturing equipment the information referred to in subparagraphs (a) to (e) to Article 21.

Article 23 of the Protocol requires that Parties cooperate with one another in providing training, technical assistance and cooperation in scientific, technical and technological matters. This involves expertise sharing, as well as the possible development of multilateral, regional or bilateral arrangements.

Article 24 of the Protocol stipulates that Parties shall, in accordance with their domestic law, take all necessary measures, where appropriate, to strengthen cooperation by multilateral, regional or bilateral arrangements for the prevention, detection, investigation, prosecution and punishment of natural or legal persons engaged in illicit trade in tobacco, tobacco products or manufacturing equipment.

Article 28 of the Protocol stipulates that Parties should cooperate with each other on mutual administrative assistance. This involves the exchange of information for the prevention, detection, investigation, prosecution and combating illicit trade in tobacco, tobacco products or manufacturing equipment.

Article 29 of the Protocol stipulates that Parties shall afford one another the widest measure of mutual legal assistance in investigations, prosecutions and judicial proceedings in relation to criminal offences established in accordance with Article 14 of the Protocol.

Objective

To develop options for the exchange of enforcement-related information in order to have detection and enforcement (Article 21); training, technical assistance and cooperation (Article 23); investigation and prosecution of offences (Article 24); the implementation of mutual administrative assistance (Article 28); and mutual legal assistance (Article 29) for consideration by Parties at the Second session of the MOP.

To promote the exchange of good practices with regard to free zones and international transit (Article 12).
Mandate

The working group should develop options – including relevant practical, legal and IT aspects – in view of setting up a framework allowing Parties to exchange enforcement information and to provide mutual administrative assistance, with due consideration to requirements of confidentiality of information, data protection and adequate legal bases.

The working group should develop options for advancing implementation of Article 23, proposing priority areas for consideration at the Second session of the MOP.

The working group will also promote the exchange of good practice in accordance with MOP decision MOP1(10).

The working group shall propose priorities for assistance and cooperation (Article 24) and for mutual legal assistance (Article 29).

Composition and selection of the members of the working group

The provisions of Article 4.2 of the Protocol and Article 5.3 of the WHO FCTC will fully apply to the working group.

All Parties to the Protocol that would like to take part in the process can join the working group and participate in the deliberations at their own expense. Each region shall nominate up to two members representing the Parties in their respective regions through their regional coordinators, to ensure equal regional participation; these regional nominees may benefit from assistance as per the travel policy of the Conference of the Parties (COP) to the WHO FCTC.

The working group would welcome Parties to the WHO FCTC that are not Parties to the Protocol to participate as observers. No travel support would be made available to these WHO FCTC Parties.

Additionally, the Convention Secretariat, having consulted the members of the working group, will invite, as observers to the working group, up to three representatives of nongovernmental organizations that are observers to the COP, and up to three representatives of intergovernmental organizations that are observers to the COP, on the basis of relevant expertise and sound knowledge of matters related to the authorities’ response to the illicit tobacco trade.

Parties willing to act as key facilitators should identify themselves at any time during the process.

Assistance from the Convention Secretariat

Pending availability of funds, at least two face-to-face meetings of the working group are envisaged between the First and Second sessions of the MOP; in addition, the group shall use web-based technologies for communication during the conduct of its work and for consulting the other Parties to the Protocol on the draft guidelines that the group has developed.

For participation in the meetings of the working group, the COP travel policy shall apply.
