Goals & Objectives

“A 25% relative reduction in premature mortality from NCDs (including CVD, cancer, lung disease, diabetes) by 2025.”
- WHO Global Action Plan on NCDs 2013-2020

“By 2025, to drive the WHO target for NCD mortality reduction by reducing premature deaths from CVD by at least 25%”
- World Heart Federation’s ‘Vision’

“By 2030, reduce by one third premature mortality from NCDs through prevention and treatment and promote mental health and well-being”
- Target 3.4 of the SDGs
WHF Roadmaps

**Methods**

1. Health System Framework
2. Systematic reviews
3. Broad consultation with WHF members and partners.
Key Health Systems Requirements

- Human resources
- Healthcare delivery
- Physical resources
- Clinical resources
- Governance and advocacy
- Financing
- Information systems
- Patients and caregivers
Adaptation at national level

- CVD Roadmaps
- Situation Analysis
- Policy dialogues
- Implementation of selected tailored solutions
## Cardiovascular Disease Scorecards

### Part A: Your Organization and Your Country’s Demographic

<table>
<thead>
<tr>
<th>Organisation(s) name</th>
<th>Suggested Data Source</th>
<th>Year of Source and Year of Source and Reference(s) if Alternative Data Source(s) Used</th>
</tr>
</thead>
<tbody>
<tr>
<td>Is your organisation a member of the WHF? If this scorecard is completed by multiple organisations give details in the reference column</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Name of Country</td>
<td></td>
<td></td>
</tr>
<tr>
<td>World Bank classification</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Life expectancy in years</td>
<td>Male</td>
<td>Female</td>
</tr>
<tr>
<td>Percentage of population living in rural areas</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Percentage of population living in urban areas</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Country GDP per capita in current USD</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Total (public and private) country health expenditure as a percentage of GDP</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Poverty head count ratio</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

### Part B: National Response to Cardiovascular Disease

<table>
<thead>
<tr>
<th>Status of National CVD Epidemic</th>
<th>Suggested Data Source</th>
<th>Year of Source and Reference(s) if Alternative Data Source(s) Used</th>
</tr>
</thead>
<tbody>
<tr>
<td>Cardiovascular diseases, deaths per 100,000</td>
<td>Male</td>
<td>Female</td>
</tr>
<tr>
<td>Raised blood pressure (SBP &gt;= 140 OR DBP &gt;= 90)(Age standardized estimate)</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Percentage of DALYs due to cardiovascular diseases</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Burden (disability) of HTN (potential life lost due to premature mortality and the years of productive life lost due to disability)</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Premature Mortality due to CVD (death during 30-70 years of age)</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Premature Mortality due to HTN (death during 30-70 years of age)</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Care gap for secondary prevention (People with heart attack or stroke who are taking aspirin, statin and at least one anti-hypertensive)</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Cardiovascular Disease Report

CVF Status Report Guidance Document

This document should act as guidance when developing the content for your own country status report (within the template provided).

Part A: Your Organisation and Your Country’s Demographic

Your Organization(s):

Suggested Data Sources

1. Your Organization’s goals
   - Particularly goals relevant to reducing CVF.
   - Mention shared CVF goals or more than one organization involved in preparing this report.

2. Your Commitment to the 25@25 goal
   - Share how your organization and others like it (within your country) are committed to meeting the WPHF goal of 25% reduction in premature CVF mortality by 2025 (25@25).

3. The purpose of this report
   - Areas for discussion:
     - How unique are the specific benefits and will benefit from an understanding and assessment of your country’s response to CVF.
     - How will these findings support actions by government and other relevant stakeholders to reduce CVF.

4. Country demographics
   - Elaborate on the statistics given in Section 1 of the score card, giving an overview of the country’s demographics. For example, the situation of the elderly, the population, languages spoken in the country’s national language.

Part B: National Response to Cardiovascular Disease

1. Overview of CVF epidemic
   - Elaborate upon the statistics given in the CVF scorecard and regarding the prevalence of CVF, hypertension, and tobacco use in your country.

2. Indicate gaps in CVF care, in particular secondary prevention
   - WHO Global Database
   - WHO STEPS Survey

Bangladesh CVD Status Report

Part A: Your Organisation and Your Country’s Demographic

Your Organization(s):

1. Background

   - Bangladesh Association of Cardiac, Vascular and Thoracic Surgeons
   - National Heart Foundation of Bangladesh
   - Heart Care Foundation Comilla (Bangladesh

Data Sources Used

http://www.nhbf.org/zh/

http://www.embrace-bd.org/

http://heartcarefoundation.org/BD/

1. Your Organization’s goals
   - Bangladesh Association of Cardiac, Vascular and Thoracic Surgeons (BACTS), aims to increase cooperation between cardiac, vascular, thoracic and vascular surgeons and to encourage the effective use of training staff. BACTS also aims to work with the Government to form policy regarding cardiovascular and thoracic care and to advocate for CV and thoracic care to national medical bodies. In the objective it is also noted that the organization aims to motivate the cardiovascular, thoracic and vascular surgeons to work towards the social development.

2. Your Commitment to the 25@25 goal
   - National Heart Foundation of Bangladesh aims to promote CV health through education and prevention. The foundation also provides services to patients and training to medical professionals. Furthermore, it undertakes research and promotes research on CVs.

3. General summary of the CVF epidemic
   - Heart Care Foundation Comilla aims to increase quality and length of life through prevention of CVF. It has a focus on Comilla and the rural areas of Bangladesh.

2. Your Commitment to the 25@25 goal
   - National Heart Foundation of Bangladesh aims to promote CV health through education and prevention. The foundation also provides services to patients and training to medical professionals. Furthermore, it undertakes research and promotes research on CVs.

Part C: National Response to Cardiovascular Disease

1. Overview of CVF epidemic
   - Elaborate upon the statistics given in the CVF scorecard and regarding the prevalence of CVF, hypertension, and tobacco use in your country.

2. Indicate gaps in CVF care, in particular secondary prevention
   - WHO Global Database
   - WHO STEPS Survey

2. Commitments made at the 2011 UN High Level Meeting on the Prevention and Control of NCDs and the resultant Political Declaration.

   - Commitments made at the WHO Global Action Plan on NCDs (2013-2020)

   - Commitments made to the 25@25 goal

   - Commitments made at the 2011 UN High Level Meeting on the Prevention and Control of NCDs and the resultant Political Declaration.

   - Commitments made to the WHO Global Action Plan on NCDs (2013-2020)

   - Commitments made to the 25@25 goal

   - Commitments made at the 2011 UN High Level Meeting on the Prevention and Control of NCDs and the resultant Political Declaration.

   - Commitments made to the WHO Global Action Plan on NCDs (2013-2020)

   - Commitments made to the 25@25 goal

   - Commitments made at the 2011 UN High Level Meeting on the Prevention and Control of NCDs and the resultant Political Declaration.

   - Commitments made to the WHO Global Action Plan on NCDs (2013-2020)
Thank you!

Working together to make a difference
