2. **Laboratory updates**
All suspected cases were positive tested with rapid diagnostic test (RDT). Stool specimens from 5 cases were sent to Juba for confirmation. Results are pending.

3. **Cholera Response Updates**
   **Case management**
The CTC needs to be expanded in Bor hospital with increasing case load more tents and cholera beds are required.
More specimen collection for culture is ongoing.
Line listing of cases continues.
The Cholera Task force met on 03 July to review cholera outbreak response activities at SMoH meeting Hall.
Preparation to set up a Cholera Treatment Centers in Bor PoC is ongoing.
Request for Oral cholera vaccination for PoC and other high risk area is sent.

**Water, Sanitation and Hygiene (WASH)**
WASH cluster is actively supporting with their activities.
Hygiene promotion and awareness campaigns ongoing.

**Social Mobilization and Communications**
The Social Mobilization and Communications activities are ongoing.
Mapping of social mobilisers and hygiene promoters as well as their locations is underway to enhance coordination and ensure rapid deployment of teams to Malou and other areas.
Local radio station is broadcasting hygiene and sanitation messages.
Available Information Education and Communication (IEC) materials have also been displayed.

**Planned activities**
The next State cholera taskforce meeting is scheduled for Tuesday 7 July, 2015 at 10:30 am in the State Ministry of Health Meeting Hall.
Follow up of the request at different level.
Education cluster lead by INTERSOS will makes awareness in school which SAVE THE CHILDREN already started and they also distributed some items. Banners and posters with cholera message will be collected from SMoH.

PAH is going to train headmasters on control of cholera.

Partners involved in preparedness and response activities for cholera outbreak are requested to update their plan and activities in brief by cluster through email below.

Many thanks to the staff at CTC, SMoH and cluster partners who have helped to gather the information presented here.

The SMoH/WHO team welcomes feedback and data provided by individual agencies. Given the fast evolving nature of this epidemic, errors and omissions are inevitable: we will be grateful for any information that helps to rectify these.

Please send any comments and feedback to: E-mail: borwho@gmail.com.
