IAWG Network

• **Documents** gaps, accomplishments, and lessons learned.
• **Evaluates** the state of SRH in the field.
• **Establishes technical standards** for the delivery of reproductive health services.
• ** Builds and disseminates evidence** to policy makers, managers, and practitioners.
• **Advocates** for the inclusion of crisis-affected persons in global development and humanitarian agendas.
IAWG Membership Structure

- Electronic Membership
- Steering Committee
- Associate Membership
Cross-Cutting Sub-Working Groups

- Logistics
- Adolescent SRH
- Data and Research
- Advocacy and Accountability

IAWG
INTER-AGENCY WORKING GROUP ON REPRODUCTIVE HEALTH IN CRISIS
Regional Sub-Working Groups

MENA

EECA

WCA
IAWG Global Evaluation
2012-2014

• Identify existing RH services
• Quantify progress
• Document gaps
• Determine future directions
Methods

• Systematic Literature Review
• Assessment of Agency Commitment and Capacity
• Assessment of Availability, Use and Quality of RH services
  o South Sudan, Democratic Republic of the Congo, Burkina Faso
• Assessment of the Use and Efficacy of the MISP
  o Irbid City and Zaatri Refugee Camp
• Analysis of crisis funding trends for RH
• Review of UNHCR Health Information System data
Progress since 2002-2004 (continued)

- Increased awareness and implementation of the MISP at the onset of emergencies
- Maternal care
- Gender-based Violence (GBV)
- HIV
- Post-abortion care
Continued gaps 3:
Services at the field level

Select gaps include:

• Full, systematic MISP implementation and transition from the MISP to comprehensive SRH services.
• Emergency obstetric and newborn care.
• Comprehensive abortion care.
• Long-acting and permanent methods of family planning.
• Emergency contraception beyond post-rape care.
• Prevention of sexual violence and comprehensive post-rape care.
• Supply chain management.
IAWG Training Partnership Initiative
IAWG-TPI Objectives

1. Resource development (S-CORTs)
2. Coordination of partnerships
3. Capacity development
4. Evidence building
SRH Clinical Outreach Refresher Trainings (S-CORTs)
## S-CORT Roll Out

### Number of participants and location of the training by country

<table>
<thead>
<tr>
<th>Country</th>
<th>CMoSVS module # of providers trained</th>
<th>MVA module # of providers trained</th>
<th>Crisis-affected settings</th>
</tr>
</thead>
</table>
| **Burkina Faso** | 25 (Sahel Region)  
24 (Ouagadougou) | 22 (Sahel Region) | Including providers from 2 NGO-run health posts located in two refugee camps (Goudebo and Mentao) |
| **Nepal**        | 38 (Dhulikhel)  
18 (Gokarna)     | 38 (Dhulikhel)  
18 (Gokarna)     | Including providers from Kavre, Lalitpur, and Kathmandu districts |
| **South Sudan**  | 30 (Maban & Juba) | 16 (Maban & Juba) | Trainings included participants from crisis-affected sites across the country (Maban, Nyal, Ganyiel, Yei, Doro, Batil) |
| **Total**        | **135** | **94** | **11** |
Operations Research: Outcomes

1. Changing health service providers’ attitudes
2. Increasing the knowledge and skills of health care providers
3. Increasing the number of providers who can offer services to survivors of sexual violence
4. Increasing providers’ awareness of patients’ rights
5. Fostering non-discriminatory and inclusive practices
What’s next?

- Forthcoming S-CORT guidance note
- Submission of findings from operations research
- Dissemination of S-CORT modules (now available for free download on www.iawg.net)
Authoritative SRH guide in humanitarian settings
Inter-agency Field Manual Revision

• Field review and feed back on 2010 IAFM in 2011 and 2015.
• IAFM revision strategy - IAFM revision task team
• In-person IAFM kick off meeting, March 2016
• Individual chapter revisions
• In-person IAFM task force meeting, Sept 2016
• Development of cross-cutting issues
• In-person IAFM task force meeting, February 2017
• Drafts for technical revision
• Final draft for graphic design and layout
IAWG 2017 Annual Meeting
Athens, Greece
November 8-10

Improving quality, access, and use of sexual and reproductive health in humanitarian settings from initial response through sustainable recovery
