Summary

During December 2017, 17 incidents of violence against health care were reported. Of these, 16 have been verified and one still being verified (in the besieged area).

Among the verified attacks, six incidents were reported on hospitals, three in Hama (two in Kafr Zeita and one in Latmana sub districts), two in Idleb (Ma’arrat An Nu’man and Khan Shaykun), while one incident reported on a hospital in Dara.

Six incidents were reported on primary health centers, of them three in Rural Damascus (Harasta and Arbin sub district), two in Idleb (Ma’arrat An Nu’man and Dana sub district), while one incident reported from Tall Ed-daman in Aleppo governorate.

Medical Warehouse was targeted in Ma’arrat An Nu’man, resulted in the damages of the warehouse and medical supplies.

Three other incidents were reported on health workers two in Rural Damascus and one in Hama.

Collectively verified attacks resulted in at least the killing of four people and injuring of five people, of them three health workers were killed and one health staff was injured.

PERCENTAGE OF STRUCTURAL DAMAGE

- 85\% MINOR DAMAGE
  - If all or most doors and windows are destroyed
- 15\% FULL DAMAGE
  - In case all capacity has been lost

*The number of casualties is the verified number of those involved in a health related attack not in general.*
