LEVERAGING PFM FOR BETTER HEALTH

JOIN US! WEBINAR SERIES
May – November 2019

Why should you attend?
Strengthening and tailoring a country’s Public Financial Management (PFM) system is integral in enabling progress towards Universal Health Coverage (UHC). The WHO webinar series will focus on key issues to be addressed to ensure PFM provide an enabling environment for conducive health financing policies.

Our Audience
This WHO webinar series is primarily addressed to planning and budgeting units at health ministries, social sector units at finance ministries, but other partners can join. It aims for the audience to find out more about PFM challenges in the health sector, country experiences and best practices to address these.

Each webinar session will be 70 minutes long, including a technical presentation, country illustrations as well as time for questions and answers. The webinar series is online, free of charge and delivered in English. Participants are encouraged to join all webinar sessions to have comprehensive technical and practical knowledge of the topic.

Registration Information
To register, please email:

pfmhealth@thinkwell.global

Detailed information will be provided to registered participants.
May 2019 - Role of PFM functions and reforms in the health sector
