Working across sectors to tackle Antimicrobial Resistance (AMR)

Dr. Katinka de Balogh
Senior Animal Health and Production Officer

The Food and Agriculture Organization of the United Nations
Regional Office for Asia and the Pacific
Bangkok, Thailand
Consumption of livestock products is growing rapidly...

Source: FAO SOFA 2009
Antibiotic Excretion by Farm Animals (kg/10km²)

Source: Adapted from Van Boeckel et al., 2015; Assumption: 50% of consumption excreted
One-Health collaboration

The Tripartite (and other intergovernmental organizations), to support the development and implementation of national action plans and antimicrobial resistance activities at the national, regional and global levels.
Expanding the One-Health Concept
THE FAO ACTION PLAN ON ANTIMICROBIAL RESISTANCE 2016-2020

Supporting the food and agriculture sectors to prevent and minimize antimicrobial resistance and the implementation of the Global Action Plan on Antimicrobial Resistance

National Health and Family Planning Commission of the People’s Republic of China
Developing National Action Plans through stakeholder consultation

Thank you!
