(Groups composed of all participants - Member States, Civil Societies, UNAIDS co-sponsors, to meet on the third floor adjacent to the Plenary Room)

1. Country Level Focus (Francophone)
2. Country Level Focus
3. Country Level Focus
4. Country Level Focus
**Question 1**
*What elements can partners contribute in relation to the WHO Strategic Directions 1, 2, 3 for helping countries scaling up towards universal access to prevention, treatment and care services?*

**Question 2**
*How do we work together at global, regional and country level?*

- **Strategic Direction 1 - Enabling people to know their status through HIV testing and counseling**

  **Themes:**
  *Commitment, coverage, capacity in the public and private sectors and level of community buy-in*

- **Strategic Direction 2 - Maximizing the health sector's contribution to HIV prevention**

  **Themes:**
  *State of the art, specific interventions, coverage and investment needed*

  **Point of Engagement:**
  - Positive prevention for people living with HIV/AIDS
  - Prevention of mother to child transmission (PMTCT)
  - Prevention of sexual transmission
  - Prevention of HIV transmission through injecting drug use (harm reduction)
  - Prevention of HIV transmission in the health care setting, including blood safety
  - New technologies for HIV prevention

- **Strategic Direction 3 - Accelerating the scale up of HIV/AIDS treatment and care**

  **Themes:**
  *Training and support, patient-centered care, adherence to treatment, treatment literacy and preparation*

  **Point of Engagement:**
  - Antiretroviral therapy for management of paediatric and adult HIV/AIDS
  - Prevention and management of opportunistic infections, other HIV-related conditions and co-morbidities
  - Care, including nutrition, palliative care and end of life care
  - Living HIV/AIDS with tuberculosis services
15:45 - 16:15  **COFFEE BREAK**

16:00 - 17:30  **Working Groups continue and complete day's assignment**

17:30 -17:45  **Wrap up - Plan for Second Day**

18:00 -19:00  **Reception - Recognizing Stakeholders**

**DAY 2**

**Tuesday, 25 April 2006**

09:00 - 09:30  **Welcome to Day II**
Moderator: Dr Srdan Matic, Regional Adviser, WHO/EURO

09:45 - 12:45  **Working Groups on the WHO Strategic Directions 4, 5**

**Question 1:**
What elements can partners contribute to the WHO Strategic Directions 4 & 5 for helping countries scaling up towards universal access to prevention, treatment and care services?

**Question 2:**
How do we work together at global, regional and country level?

- **Strategic Direction 4 - Investing in strategic information to guide more effective response**

**Themes:**
Building system at country level, setting global targets, international benchmarks, reporting systems

**Possible Intervention:**
- Surveillance of HIV/AIDS and STIs
- Treatment outcomes monitoring for individuals and populations, including HIV drug resistance
- Monitoring and evaluation of and reporting on the health sector's response towards universal access
- Operational research

- **Strategic Direction 5 - Strengthening and expanding health systems**
Themes:
Capacity development, effective collaborations, quality assurance, planning, monitoring and evaluation, resource development

Possible Intervention:
- Leadership and stewardship
- National strategic planning and management
- Procurement and supply management
- Laboratory strengthening
