Collaboration between National PV Centres and National AIDS Control Programmes

National Plans

Training Course for Introducing Pharmacovigilance of HIV Medicines
23 - 28 November 2009, Dar Es Salaam
Objective

An integrated approach to monitor patient safety and programmes effectiveness
Assess and build the argument

For:

- Why (We need to monitor..)
- What (Major plan components to reach this objective)
- How (Means to the goal)
- Who (Roles and responsibilities)
- When (Achievable timelines against Gantt chart)
- Costs
- With what resources and sources?

World Health Organization
Monitor and evaluate

– Deliverables.
– Milestones
– Indicators and monitoring plan
Expected output

A common work plan with:

– respective and complementary responsibilities

– clear deliverables and timelines
Advise

Keep things simple & focus on what can be done.
(what you can do!)
